WEDNESDAY'S SESSION

Chicago, June 20th.—Rumors of a compromise candidate continue to fly thick and fast throughout all Chicago. Delegates are persistently talking the nomination of a "dark horse" candidate.

Color is given to these reports by the fact that Senator Crane and other prominent leaders of the Taft cohorts are earnestly conferring with other Taft leaders and with some of the Roosevelt leaders in an effort to agree on a compromise candidate.

Whether the work of Senator Crane in that particular is sincere or not is a question which is debated on every hand.

The opinion prevails among many that the Taft forces now that their strength has been demonstrated and Roosevelt defeated the leaders are casting about for a candidate who will not antagonize the Roosevelt forces.

Others insist that Senator Crane and others are merely trying to build up an excuse by having repeated offers of compromise refused, by the Roosevelt forces, to go before the people claiming that all possible was done to prevent a bolt.

Later in the afternoon the talk of a bolt was revived and leaders on both sides were energetically denying that they had ever counseled the nomination of a compromise candidate.

The impression that the Roosevelt forces will bolt the convention immediately upon the report of the Credentials Committee is gaining supporters every hour.

No man can tell what an hour will bring forth.

The warring factions may agree to a compromise candidate, the Taft followers may, if able, put through their program unrelentingly, and the Roosevelt forces may remain in the convention to the last or bolt at any minute.

Then, too, there is a prospect of a split in the Roosevelt ranks. Many Roosevelt leaders insist that they will not bolt.

No action, no matter how radical, would cause surprise here, as the people are prepared for almost any action.

Chicago, June 20.—The Ohio Roosevelt delegation is divided on the bolt question. Garfield is ready to advise taking such action. It is expected, however, that the 34 Ohio Roosevelt delegates will vote solidly one way or the other.

Roosevelt Ohio delegation met at ten o'clock this morning to decide on the course to be followed.

Governor Johnson is now advocating the candidacy of a new party with Roosevelt as leader.

Later in the morning Senator Crane, representing the Taft forces, in an effort to prevent a party split, conferred with

Chicago, June 20.—Coliseum.—Excitement was at fever heat when the Republican national convention reassembled at 10 o'clock this morning, the chief topic of conversation being the appeal made by Colonel Roosevelt to his delegates to bolt the convention if the committee on credentials decides to permit delegates whose seats are contested to vote on the eligibility of the 122 delegates whom the Roosevelt forces are trying to seat.

It is not expected that a decision in this matter will be reached for some time, as the committee changed its mind about holding an all-night session and did not meet for actual business until 9 o'clock this morning, and will grant each side 30 minutes for debate on state contests and 20 minutes on district contests.

Chicago, June 20.—Colonel Theodore Roosevelt, in a sensational address to his delegates and advisers, begged his followers not to lay down in the convention today, but to organize a convention of their own right there in the convention hall if the 80 delegates whose seats are in dispute are permitted to vote upon any question affecting the title to these seats.

Colonel Roosevelt said: "I hope that you will decline longer to submit to having delegates fraudulently seated in the convention allowed to sit as judges on their own contests. You must not allow your opponents to win by foul means after losing by fair means and thus swindle the people out of the victory which they won."

"If voted down I hope that you, the real and lawful majority of the convention, will organize as such. And you will do it if you have courage. Now let's see if the Republican party is the party of the real people, the people of the United States, or of the bosses and the interests maintained in the interest of special privilege."

Says He Is Through.

"As for myself, I want to tell you right now that I am through."

"I have been asked to come here and give you my views on this situation, when I began my fight. For months I said that if the people decided against me I would have nothing to say, but if the people were for me and the politicians decided against me, I would have a lot to say. Now the national committee, or a portion of the committee, who made a majority of the convention by seating delegates who were fraudulently elected, are trying to cheat me out of the nomination. They can't do it; I won't let

them, so far you have permitted them to beat you in the convention by using these stolen votes. Don't let them do it today. I hope that today you will at once introduce a resolution that not one fraudulently seated delegate shall vote on any question in the committee on credentials or in the convention or on any question whatever."

"Don't be down again. If they beat you again on fraudulent votes, there is no sense in voting to cast out fraudulent votes, and then when you are beaten by those very fraudulent votes on saying that you are sorry and that you will go home. We do not propose that we shall be swindled out of a victory honestly won nor that the people shall be swindled out of the victory that they have honestly won."

While Mr. Roosevelt was making this speech he was surrounded by Governor McGovern of Wisconsin, Medill McCormick and others. The Florentine room was crowded and the colonel's speech advising a bolt was received with tumultuous cheers. There were many women in the gallery, keyed up to great excitement.

Colonel Roosevelt closed his speech by saying that he could not go into the details of the bolt, that they would get these details from their leaders in the morning.

Colonel Roosevelt then went into executive session with his lieutenants and spent the rest of the night preparing the plans for the fight in the convention. Each step in the fight will be allotted to the respective Roosevelt leaders on the floor of the convention.

Governor Johnson of California talked to the delegates for a few minutes after the colonel retired. He said that the Roosevelt men had stopped fighting with feathers and were going to fight with clubs. He was quite ready to follow Pennsylvania in a bolt and to join his 24 from California with the other delegates in a bolt.

DENOUNCES COMMITTEE

Pennsylvania Delegates, Headed by Flinn, Decide to Bolt.

Chicago, June 20.—By a vote of 62 to 2 the Pennsylvania Roosevelt delegates decided to leave the Republican convention. William Flinn, the chairman of the delegation, made an announcement to that effect at a meeting of Roosevelt delegates in the Florentine room of the Congress hotel. The announcement aroused the wildest excitement among the delegates, of whom there were present about 300. At the height of the excitement Colonel Roosevelt entered the room. He asked the delegates to suspend judgment and to delay decision until he had ascertained certain facts.

The meeting was called just as soon as the Republican leaders heard that the 19 Roosevelt members of the credentials committee had left the meeting of that body in the Coliseum. As soon as the meeting was called to order Mr. Flinn, chairman of the

JOHN WANAMAKER

Taft Delegate Speeds to the National Convention.

steering committee, got up on a desk and addressed the delegates. He said in part:

"Many of you have heard personally or through the newspapers of the action of the national committee prior to your coming here. Their actions since our arrival are not altogether unexpected. We won't have them any longer. If this thing is to continue, what is the use of holding a national convention? Why don't we turn it over to Penrose, Tom Murphy, Big Steve and Scott, and let the postmasters do their business themselves?"

At that there were cries of "porch climbers," "burglars," to which Mr. Flinn replied, "You can't beat them."

At this point a member of the credentials committee from Maryland got to his feet and said, with upraised arm, that he had just left the meeting.

Colonel Roosevelt was brought into the room and said: "I am going to ask you to take a recess until I can get certain facts which I wish to lay before you. I earnestly counsel you not to discuss this matter until I am able to put the facts before you."

"But I can tell you the general outline of the course which I intend to pursue. I will never recognize as a Republican convention a body of which the majority, in an essential part, was composed of fraudulently seated delegates. It is not the Republican party. I hold that this is no case of ordinary faction fight."

COMMITTEE ORGANIZES

Take Up Contested Delegates' Cases This Morning.

Chicago, June 20.—It was the original intention of the credentials committee to hold an all-night session to hear arguments in contests involving the seats of 122 delegates. The Roosevelt people apparently felt that they might be able to nominate Colonel Roosevelt for president if they could get these 72 delegates, the seats of whom were awarded by the national committee to delegates who favor President Taft's renomination.

Before the national committee there were contests involving the seats of 254 delegates, of which 234 were awarded to President Taft and 20 to Colonel Roosevelt, which means that the colonel has dropped contests for the seats of 132 delegates.

The committee met immediately after the convention adjourned, and then took a recess for dinner, after electing as chairman Thomas B. De-

vine of Pueblo, Colo., by a vote of 39 to 18, his opponent being W. S. Lauder of Washington S. D., for whom the Roosevelt members of the committee voted. Neither Mr. Devine nor Mr. Lauder voted on the roll call, so that the Taft strength on the credentials committee is 33 and the Roosevelt strength 19, or four more than the average Roosevelt strength on the old Republican national committee, which heard the contests first. This vote also indicates the anti-organization strength on the new committee to be chosen by this convention will be about 19 out of the 63 members of the committee.

Indicates Taft Control.

It also indicates that the credentials committee will, in nearly every contest, seat the Taft delegates, in view of the action of the convention itself, it refusing to change the decision of the national committee on any of these contests.

The members of the credentials committee are: Alabama, Birch; Arizona, Adams; Arkansas, Granger; California, Heney; Colorado, Devine; Connecticut, Roraback; Delaware, Mitchell; Florida, MacFarlane; Georgia, Blun; Idaho, St. Clair; Illinois, McCormick; Indiana, Hemenway; Iowa, Devitt; Kansas, Harris; Kentucky, Gavin; Louisiana, Cohen; Maine, Libby; Maryland, Carrington; Massachusetts, no choice, deadlock; Michigan, Atwood; Minnesota, Halbert; Mississippi, Mosley; Missouri, Tolerton; Montana, Lanstrom; Nebraska, Sackett; Nevada, Roberts; New Hampshire, Estabrook; New Jersey, Ayis; New Mexico, Seaberg; New York, Maltby; North Carolina, Cowles; North Dakota, Lauder; Ohio, Sullivan; Oklahoma, Norton; Oregon, Swift; Pennsylvania, Mitchell; Rhode Island, Lawton; South Carolina, Tolbert; South Dakota, Way; Tennessee, Early; Texas, Warnken; Utah, Spry; Vermont, Estey; Virginia, Summers; Washington, Dovell; West Virginia, Shaw; Wisconsin, Cady; Wyoming, Mondell; Alaska, Shackelford; District of Columbia, Bradshaw; Hawaii, Rice; Philippines, Hartigan; Porto Rico, Behn.

A WOMAN'S VIEW.

The charming wife of William E. Borah, United States Senator from Idaho, and one of the Roosevelt managers, insists that she does not see anything in connection with the turbulent Republican convention at Chicago, which would cause her to regard it as history-making gathering.

Mrs. Borah insists that the battle is one between men to gratify their ambitions. A battle for power and supremacy between men and factions, just such as we have always had and will continue to have as long as men are men.

With this view almost every close observer of men and events will agree.

This, it should be borne in mind, is Mrs. Borah's first convention experience, and making this plain, even blunt observation, she proves herself possessed of the simple matter of fact, direct and honest way of looking at condition and analyzing them for causes and effects, which compel many to accord to women a sixth sense.

Mrs. Borah has the situation sized up about right. The convention, while it promises to make history for some of the men and some of the candidates and in all probability establish precedent and law for party government, while its action may close the chapter of some of the actors, in history, yet so far as the nation is concerned, there does not promise to be any historical result.

The proceedings of Tuesday, apparently dealt a death blow to the hopes of Roosevelt and his followers, and the fighting Colonel announced at the conclusion of the vote on the Watson motion to refer the Hadley resolution to the Credentials committee, "I am through."

Whether his loyal followers will throw up the sponge or continue an apparently hopeless fight in the convention on the bare possibility that something might happen to turn the tide, or whether they will follow the clearly expressed wish of Roosevelt to bolt it all and organize a new convention, are questions which the sessions of Thursday will answer.

Many of the enthusiastic followers of the Roosevelt cause were confidently expecting the bolt to come, if it ever did come at all, on the first roll call, when the State of California was called.

The convention having passed that crisis in safety, early in the first day's session, from that moment the possibility of a bolt began to grow more and more remote, and with every passing moment serious consequences which would follow the taking of such a step became more plain to the Roosevelt leaders and delegates.

With the submission of the fate of the Hadley resolution to the roll call of the convention as made up by the National committee on Wednesday, the possibility of a bolt was rendered still more remote and now on Thursday, with the defeat of Roosevelt almost certain the prospect of a considerable portion of leaders and delegates bolting the convention is about reduced to nothing and the observation of Mrs. Borah made early in the game seems to be justified by the events which have followed since she made that quiet, frank statement.

SENATOR CRAWFORD'S FAMILY

Mrs. C. I. Crawford, wife of the senator from South Dakota, is very popular in congressional circles, and her family is no less popular among the young folk of the capital city. Mr. and Mrs. Crawford were married in 1896 in Iowa City, Ia.

Poetry—Today

STILL ON DUTY.

The "cohorts" are assembling there's gathering of the "clans;" The air is rent with "slogans," emitted by the "fans;" The "mighty hosts" are moving; "wild rumors are afloat;" With "lines of battle forming," we hear the "strident note."

The "crucial hour" approaches, the "fateful day" is near; The "gods of chance" are bending in eagerness to hear; The "warring factions," nearing the "parting of the ways," Are "leaving doubt behind them" and "chafing 'neath delays."

With "all their forces marshaled," the "chieftains view the field," By "cunning movements" keeping their "batteries concealed;" "The ground has been examined," "There can be no retreat," The "rival captains tell us" "the rout shall be complete."

"The shields are brightly burnished" the "banners wave on high;" "No quarter shall be given," the word is "do or die;" The "clans," the "hosts" and "cohorts" that oft have served before Are "wheeling into action" to "fill the gaps" once more.

HOW GOOD HAIR IS RUINED.

"Mary, do you know, in Mrs. Mason's Book, on 'The Care of the Hair,' she warns people against using borax, ammonia, salts of tartar and strong alkali soaps to wash the hair, and I am convinced that mine was about ruined in that way."

"Now, just think, for only 25c, at Blackmer & Tanquary's Drug Store, right here in Washington C. H., you can get a tube of Mrs. Mason's Old English Shampoo Cream, which is made from the extract of Tonic Cleansing Herbs—her own private formula—and one tube is sufficient for several shampoos."

"When one can wash one's own hair so easily with it and feel that at the same time we are rubbing the tonic properties into the roots of the hair, I shall continue to use it instead of paying 50c, or \$1.00 to go to the hair dressers' every time I want my hair washed."

"I never had anything make my hair so delightfully clean, silky and fluffy as this tonic herb shampoo."

Red Cross Ball Blue, all blue, best bluing value in the whole world, makes the laundress smile.

Weather Report

Washington, June 20.—Ohio and Indiana—Cloudy Thursday; Friday fair, rising temperature; light to moderate west winds.

Tennessee, Kentucky and West Virginia—Fair Thursday and Friday; rising temperature.

Lower Michigan—Cloudy Thursday; Friday fair; light to moderate variable winds, mostly west.

Washington	64	Cloudy
Philadelphia	64	Cloudy

Weather Forecast.

Washington, June 20.—Indications for tomorrow: Ohio—Fair; rising temperature; light to moderate westerly winds.

Prosperity And Honesty

The president of the Equitable Life Assurance company, who has the investment of \$400,000,000 in his hands, has just completed a trip of 13,000 miles through the country and returns with high hopes as to the future of business. He found everywhere the usual indications of a prosperous year.

One thing he said, we quote as follows: "Notwithstanding the criticism of corporate organizations, the business integrity of this country was never at a higher level than it is now." That is the best sign yet. Good crops, increased transportation, plenty of money, confidence, and such indications are hopeful, but after all, the moral way in business is the most hopeful sign of all. There is no healthful prosperity without that.

And the principle works everywhere. Do a mean or dishonest thing in a good cause and it hurts the cause. The little worm down in the bud spoils the fruit. When the time comes that honesty prevails everywhere in business, prosperity will always be with us. One can tell whether any project will succeed finally or not, by looking it through and through, and seeing if there is any dirt in it or not. If there is, don't count on it.—Ohio State Journal.

Good Roads Federation Wage Extensive Campaign

An extensive campaign is being planned by the Ohio Good Roads Federation looking towards the adoption, by the voters at the primaries on September 3, of the Constitutional amendment authorizing the issuing of \$50,000,000 in bonds, the money to be used for the completion of a uniform and state wide system of improved and modern roads. The campaign is to be an active and aggressive one, based largely along educational lines, bringing home to the people, in a forceful manner, the good results which will follow in an economic way when the work of the Federation has been fully completed.

Practical illustrations will be given of what has been accomplished in those portions of the state where good roads have been established under the operation of the bill known as the "County Aid Act" making the county the unit in the matter of roads improvement.

It will be a matter of surprise to know that in such localities the attendance of county churches has largely increased due to the fact of roadways offering no obstacle in the way of easy transportation. Because of this there has been a gratifying growth in the matter of contributions to the weekly offerings and the Parson need no longer take out a goodly share of his salary through the medium of donations.

Another fact, which will be put to the front, is that a system of good roads will reduce the price of food products through the medium of reduced cost of transportation. This has been made plain wherever improved roads have taken the place of the old dirt highway, which for several months in the year was almost impassable. It is estimated by competent authorities that the annual loss to the people of the state has been from \$10,000,000 to \$12,000,000 as a result of the absolutely insufficient means of transportation offered by the prevailing highways. In the end the people themselves have had to bear this.

The Federation is calling attention to the fact that the roads are common property and used by every one either in driving, by automobiles or on foot. Children walk to school and in localities where the roads are poor, it is at times almost impossible to make progress. Indeed, days come when the highways cannot be traversed in any way and then the children must remain at home and an enforced holiday is the result.

Still another feature of the campaign, to which the lime light will be turned, is that where unimproved roads prevail. There are long stretches in each year when the thoroughfares cannot be used at all and then produce must be rushed to market only during such times as transportation is possible. This brings about a congested condition and entails hardships both upon the farmer, his horses and his wagons. In the cities where attention has

been given to roads improvement the beneficiary results are no less potent than in the country. There is no resident in the urban district who cannot recall with vividness and some degree of trepidation how he has struggled through seemingly bottomless fields of mud to gain some harbor where the streets were paved.

This condition is now rapidly passing away and the Federation is lending its co-operation to the work. City residents will likewise share in the good which will come from the improvement of rural roads since they use the latter no less frequently than those who live within the centers of population.

The ultimate outcome of the plan now in a most successful period of formation, is the building of a system of state roads traversing Ohio from border to border in every direction, connecting with the main thoroughfares, constructed by the state, are all the latter roads in each county. These will likewise be improved under the direction of the Commissioners, so that in the end there will not be an unimproved road in the state.

Some opposition has been encountered because of the amount of bonds asked for, \$50,000,000, but this dissolves when it is learned that the average per capita cost to the people of the state will be but five cents a year. The tax levy will start at one tenth of a mill and never go beyond four tenths. The fifty-three cents will be divided in proportion to a man's means so that the small property owner will not be compelled to pay so much as the man possessed of greater wealth.

The plan of campaign includes the sending out of speakers into every section of the state and is ready much of this work is being done. In addition a cohesive organization will be formed with a working force in all of the 88 counties of Ohio. The co-operation of many of the leading citizens of the state has already been secured.

Ohio was the first commonwealth in the Union to adopt a complete Inter-County plan placing all counties on the same basis. Therefore it becomes a matter of state pride.

Local Firm Lands Contract

The contract for building a township High school building at Good Hope and a centralized grade building at Cisco has been let. Parker & Wood Manufacturing Company of this city being the lowest bidder, and the contract was signed Thursday.

The Good Hope building will cost approximately \$20,000, while the building at Cisco will cost about \$10,000. Both structures are to be completed by December 20, 1912.

Saving Money

Many Good Sound Reasons for Hoarding

By JOHN M. OSKISON

ASK THE NEXT person you meet to tell you why you ought to save money.

You will be likely to hear some such answer as, "Why, I don't exactly know—I suppose to provide for the future." In a sense the answer will be sound. But only in a general sense.

More important is the duty to save in order to make the work of today lighter and more profitable.

There is a good old expression, "making a start," which seems to be falling into disuse. It ought not. Behind it lies one explanation of American enterprise and success. It implied that every young fellow was expected, when he turned twenty-one and began to consider marriage, to branch out from the old folks and make a start in life for himself. It might mean buying a farm, a store, a shop, setting up as a doctor, dentist, lawyer, surveyor.

Usually it meant that the old man would help the young man to make that start for himself.

One reason why the expression is disappearing is that parents are becoming less and less able to supply their sons with the money and credit needed to make that start on a business or professional career. Living cost, population increase and actual lessening of opportunities are the explanations. The start calls for money or credit—more than ever.

Save money, then, to ease the present as well as to cushion the future. Save money to keep the boy in school, to send him to college, to give him the start in life which you think he ought to have. Save money to buy yourself a comfortable house in a yard somewhere among the flowers and trees.

Save for buying the good, nourishing food you and yours need if you are to continue cheerful and efficient.

Save money, not merely as a spur to ambition, but as a very real step in realizing that ambition.

Why save money? Think it over.

900 DROPS

CASTORIA

ALCOHOL 3 PER CENT.

Vegetable Preparation for Assuaging the Food and Regulating the Stomach and Bowels of

Dangerously Injured By Runaway Horses

Frank Crosswhite Nearly Scalped When Horses Trample Him With Steel-Shod Hoofs.—One Animal Turns Complete Somersault Over Pile of Lumber.

Trampled under the steel shod hoofs of a team of runaway horses and thrown violently against a telephone pole was the dangerous experience of Frank Crosswhite, colored, at 9:30 Thursday morning.

Crosswhite was employed loading scrap iron for A. C. Henkle, immediately back of the Dahl-Millikan Cannery, and the horses took fright at a passing train, making a plunge for liberty.

Peculiar Accident Befalls Game Warden

An extraordinary accident which came near ending in a tragedy occurred at the city prison in Chillicothe Wednesday, in which Deputy Game Warden Herman Poppendick was the principal character.

Deputy Poppendick was packing up some illegal fishing paraphernalia which he had confiscated, and which he had placed in one corner of the city prison. While stooping over his revolver slipped from its holster and fell to the floor, exploding and the 4-caliber ball struck a steel post behind which, Otto Cramer, a prisoner, was standing. No one was injured.

COVERED WITH SORES.

Many People Don't Know How to Get Rid of Skin Troubles.

Try This Remedy at Our Risk.

There are many people whose skin is almost covered with sores caused by eczema or some other skin trouble and who suffer terribly when they might easily have relief.

What they need is a remedy that will heal thoroughly without irritating, but ordinary ointments are useless in such cases.

That is the condition our new skin remedy, Saxon Salve, was devised especially to meet, and we sell it under a positive guaranty of satisfaction or money back. Even in the first few days of treatment, you can see a remarkable improvement.

Saxon Salve gives immediate relief from the terrible itching and burning, and also penetrates the skin thoroughly, healing it in a short time. It is the most satisfactory we have ever seen, and is as good for young children as for older people.

CROCODILE HUNT IN BORNEO

Natives Continue Slaying Animals Until the Guilty One Is Found.

Muri, Borneo.—It is a common sight in Borneo to see a large crocodile sunning himself on the muddy bank of a river. He takes no notice of the natives even though they pass quite near him. So common indeed is the sight that the Dyaks themselves pay no heed to these dangerous reptiles; and yet it is no unusual thing in Borneo to hear of some human life being taken by a crocodile.

For months perhaps the crocodiles in a river live at peace with mankind and then suddenly one of them will carry off some lad bathing in the river or even attack some one paddling along in his boat. A correspondent tells of a Dyak girl who, when sitting and paddling at the stern of a

Tempting the Crocodile—Boys Shooting Rapids in Borneo.

canoe, was knocked over into the water and carried away by a crocodile and her companions could do nothing to save her.

There seems to be no reason why the crocodile should suddenly show a man eating propensity in this way. The Dyaks account for it by curious superstitions. They say that if food is offered to a person and he refuses it and goes away without at least touching it some misfortune is sure to befall him and he will most probably be attacked by a crocodile.

Also it is said that one of the ways the gods punish crime is by sending a crocodile to attack the culprit; and it is often said by Dyaks of some one who has been killed by a crocodile that probably he has displeased the gods either by paying no heed to the warnings sent him in dreams or by means of omen birds or by committing some hidden crime.

The Dyaks of Borneo will not kill a crocodile except in revenge. If the animal will live at peace with him the Dyak has no wish to start a quarrel; if, however, the crocodile breaks the truce and kills some one, then he feels justified in retaliating. Under these circumstances the Dyaks set to work to find the culprit and go on catching and killing crocodiles until they succeed getting the guilty one. The Dyaks generally wear brass ornaments and by cutting open a dead crocodile they can easily find out if he is the creature they wish to punish.

FIFTY CENTS YIELDS \$2,500

Policeman Had Been Carrying It in His Pocket Without Knowing Coin's Value.

Atlanta.—For the last seven years City Policeman G. Allen Maddox has carried about a fortune in his trousers' pocket, without knowing it. He has clinked it against other silver coins, without dreaming of its value. But now he finds that it is worth more than a thick roll of greenbacks or many pieces of gold. Yet, it is merely a silver half-dollar piece. But it was minted in 1853, and is valued for its rarity.

Only two other of these pieces it is said, are known to be in existence. The owner of one of these recently refused \$2,500 for his coin.

Officer Maddox has another half-dollar piece made in 1834 and a third in 1850. But neither possesses the value of the 1853 half-dollar.

One of the three half-dollars minted in 1853 is owned by Charles L. Cross of Los Angeles.

NABS ROBBER IN CHURCH

Pastor, Fully Armed, Is Able Aid of Policeman—Captures Thief as He Leaves Building.

Lancaster, Pa.—Rev. W. Stuart Cramer, pastor of the First Reformed church, captured a burglar at midnight. He was notified by a neighbor that there was a burglar in the church and he notified the police station, half a block distant.

Pastor Cramer, with a revolver, was on duty at the front door, and when an officer entered the church the thief ran out. Pastor Cramer promptly covered him with his revolver, captured him and turned him over to the police.

The thief had \$2.08, which he had stolen from the charity boxes. He gave his name as Harry Adams, and said he lived in Michigan.

TO RESTORE GARDEN

Work Is Begun on Famous Orangerie at Versailles, France.

Landscape Is Considered Le Notre's Masterpiece—It Has Particularity of Giving the Impression of Being Perfect Work of Art.

Paris, France.—Important works are in progress at Versailles in the restoration of the Orangerie. These are expected to be terminated shortly. Since, therefore, the great gardener Le Notre again occupies public opinion it is permissible to expatiate upon the beauties of the gardens at Versailles, which are unquestionably his masterpiece.

Designed as they are with consummate art, these gardens are always charming, though nowhere in them is there a trace of abandonment or fancifulness. They have the particularity of giving the impression of being a perfect work by reason of the art, judgment and wit expended upon them, and for this reason such poets as Alfred de Musset have never been able to admire their precise, stiff and rather solemn style. But, on the other hand, their beauty is one that endures, over which the years slide without marking it with a shadow of decrepitude or with a wrinkle, and which ends by triumphing over all the caprices of taste, fashion and time.

There is a famous point in the gardens of Versailles—this is the one chosen by Louis XIV. himself to afford his visitors an opportunity of admiring his vast domains. This point is in the axis of the Tapis Vert, at the foot of the Parterre de Latone. From it one can embrace in a magnificent view the perspective of the Chateau, the park and the Grand Canal.

Turning first toward the Chateau, the visitor's eyes run rapidly over the marble steps, the wide alleys, the verdant slopes which lead up to it, without missing the play of the fountains, the sculptures and vases, mingled with the trees, lawns and flowers, with sobriety and perfect taste.

From the parterre of the Orangerie the eye naturally rises to the imposing mass of the Chateau, which appears so majestic above the stone balustrade of the sustaining wall. In all this architecture are arranged the greenhouses or winter garden in which the rare or fragile plants, the exotic trees, such as the rose laurels, the pomegranate and orange trees, find shelter. And the picturesque pleasure of this image is such that one can easily imagine it adorned with the most varying and brightest colors in all possible shades of red, green, yellow and blue—in a word, like a veritable picture.

London.—Biological tests by scientists at the London hospital show that "writers' cramp" and other similar states of apparent muscular paralysis are actually due, not to the tiring of the muscles, but to brain lag.

It appears that the particular part of the brain which controls special combinations of muscle-action, such as the movements of writing or the work in go of a telegraph key, tend to become more quickly exhausted in some individuals than in others. Such exhaustion leads to a state in which the brain is actually unable to send out its necessary messages to the hands and fingers to write, tap a key, hold a violin bow, and so forth. Furthermore, once the nerve cells, the "batteries" of the brain, get thoroughly run down, it is not easy to restore their energy.

Heretofore it has been supposed that all troubles of the kind were due simply to overtiring of the muscles concerned.

Permits Elders to Sleep in Church. Philadelphia.—While William Bancroft was holding forth before the Society of Friends a gentle rumble of snores came from all parts of the old meeting house. The speaker admonished his hearers to let the old folks sleep on. He said he would talk to the young people and let the elders enjoy their naps.

Calico Dresses for Commencement. Peconic, Ill.—The girls of the senior class of the High school have decided to wear calico dresses, of their own make, at their graduation exercises.

Foreign and Native Born

In the census tables printed in the Post-Standard yesterday there were some surprises.

The proportion of native-born whites over 21 to all whites over 21, native, naturalized and alien, is roughly 60 per cent in Rochester, 65 per cent in Syracuse, 74 per cent in Albany, 48 in Tonawanda, 72 in Troy, 60 in Utica and 63 in Schenectady. Yonkers is the only one in this group of cities in which the foreign-born exceed the native-born.

In every one of the third class cities of the state for which there is report (only cities having 25,000 and more people are included), the native-born exceed the foreign excepting in Niagara Falls, where the excess of foreign-born is 1,000, and Jamestown, where the excess is slight. In Binghamton the native-born are nearly 80 per cent of the

World's Greatest Motion Picture

A marvelous, hitherto undreamed of achievement, marking an epoch in the history of moving picture production.

The picture that cost \$50,000.00 to produce, and took three years to make, using 350 people in the cast. The one picture that is universally endorsed by educators, press, pulpit and public. The one story in history that is known to every civilized human being. The one picture that stands absolutely paramount, supreme, unapproachable among moving picture productions is Selig's Coming of Columbus, in three reels. A master piece among masterpieces. See this famous picture at the Colonial theater Thursday night.

Don't Know They Have Appendicitis

Many Washington C. H. people have chronic appendicitis (which is not very painful) and think it is just bowel or stomach trouble. Some have doctored for years for gas on the stomach, sour stomach or constipation and Christopher states if they will try simple buckthorn bark, glycerine, etc., as compounded in Adler-I-ka, the German appendicitis remedy, they will be surprised at the QUICK benefit. A SINGLE DOSE stops those troubles INSTANTLY.

Coming to Washington C. H.

DR. H. H. WILLIAMS

GOITER SPECIALIST.

Who has cured over one hundred cases of Goiter without pain or surgical operation, will be at the

Cherry Hotel, Washington C. H., Saturday, June 29.

One Day Only. Hours 9 A. M. to 4 P. M.

GOITRE IS CURABLE.

From the days of Hippocrates down to the present time Goitre has been considered an incurable disease. I considered it so myself at one time, but having so many cases of it in my practice I determined to study the disease for myself, and try for the sake of its unfortunate sufferers to discover a cure for it. How well I succeeded you can learn from some of my many cured patients, or for yourself by giving it a fair trial. My treatment has cured hundreds of cases in the past few years, after every known remedy had failed, which makes me positive when I say I have at last perfected a treatment for GOITRE THAT WILL POSITIVELY CURE IT. It makes no difference if other treatments have failed in your case, hundreds of my patients say the same thing when they come into my care. Almost without exception they begin to note improvement after the first two or three weeks' treatment, which continues until all the goitre is entirely gone and the patient restored to perfect health.

WHY MY TREATMENT IS SUCCESSFUL

I have thoroughly mastered this disease. I have devoted several years of study to this one disease, and I believe I can truthfully say I can cure any case of goitre that is possible for human means to cure. I treat the disease to cure it, and not simply to reduce the swelling. I study each and every case separately, and treat each case individually. I have no "cure-all" as some specialists proclaim. I build up the general health and counteract and remove the poisonous secretions formed in the goitre from the system. I also remove all trace of disease from the affected glands, which makes a return of the goitre practically impossible.

CONSULTATION

If you are afflicted with Goitre you need treatment of some kind. A specialist who has made a life-time study of this one disease is certainly better prepared to give you better results than any other physician. Call and get our Booklet.

Consultation and examination free.

Dangerously Injured By Runaway Horses

Frank Crosswhite Nearly Scalped
When Horses Trample Him
With Steel-Shod Hoofs.—One
Animal Turns Complete Somersault
Over Pile of Lumber.

Trampled under the steel shod hoofs of a team of runaway horses and thrown violently against a telephone pole was the dangerous experience of Frank Crosswhite, colored, at 9:30 Thursday morning. Crosswhite was employed loading iron for A. C. Henkle, immediately back of the Fayette Cannery, and the horses took fright at a passing train, making a plunge for liberty.

Crosswhite was in the path of the maddened animals and the ran over him, knocking him against a telephone pole. A great gash, laying bare the skull, was cut in his head and a bad gash cut on his left shoulder, causing the blood to pour out in streams. The man was not rendered unconscious, notwithstanding the fearful blow dealt him by the steel-shod hoofs of the horses. Drs. Brock and Ireland were summoned and he was taken into the office of Pyley's storage building and his wounds dressed. The gash in his scalp was over five inches in length.

It is said that the horses had run off upon two previous occasions this week. An onlooker says the horses plunged over a pile of railroad timbers, one of them turning a complete somersault and the other dragging it about the railroad yards until they were captured.

Peculiar Accident Befalls Game Warden

An extraordinary accident which occurred at the city prison in Chillicothe Wednesday, in which Deputy Game Warden Herman Poppendick was the principal character. Deputy Poppendick was packing some illegal fishing paraphernalia which he had confiscated, and which he had placed in one corner of the city prison. While stooping over his revolver slipped from its holster and fell to the floor, exploding and the ball struck a steel post behind which, Otto Cramer, a prisoner, was standing. No one was injured.

Another arrest was made by Poppendick Wednesday, and he is giving Ross county a scouring for seines.

Foreign And Native Born

In the census tables printed in the Post-Standard yesterday there were some surprises.

The proportion of native-born whites over 21 to all whites over 21, native, naturalized and alien, is roughly 60 per cent in Rochester, 65 per cent in Syracuse, 74 per cent in Albany, 48 in Yonkers, 72 in Troy, 60 in Utica and 63 in Schenectady. Yonkers is the only one in this group of cities in which the foreign-born exceed the native-born.

In every one of the third class cities of the state for which there is report (only cities having 25,000 and more people are included), the native-born exceed the foreign excepting in Niagara Falls, where the excess of foreign-born is 1,000, and Jamestown, where the excess is slight. In Binghamton the native-born are nearly 80 per cent of the

population.

Some popular notions with respect to the "foreign element" in the population will be revised by the publication of the latest tables of the Census bureau. In Cambridge, seat of Harvard University, the foreign-born are in a majority, and the negro population is larger than in any up-state city in New York. In Lynn, the shoe town, on the other hand, the natives constitute about 60 per cent of the adult whites. The aristocratic town of Brookline with about half the population of Topeka, Kan., has approximately the same number of foreign-born. The prosperous city of Cleveland has more foreign than native-born, but in Cincinnati the natives predominate. Detroit and Milwaukee are both in the popular mind Socialistic Milwaukee is a growing city. In kee is the more foreign. As a matter of fact, the native-born are in slight majority in Milwaukee, while in Detroit there is a heavy predominance of the foreign-born.

In Boston the foreign-born are a majority of the adult population; in Pittsburg the native-born are largely in excess. Kansas City, Mo., has less foreign-born than Syracuse, but it has more negroes than Charleston.—Syracuse Post-Standard.

DON'T KNOW THEY HAVE APPENDICITIS

Many Washington C. H. people have chronic appendicitis (which is not very painful) and think it is just bowel or stomach trouble. Some have doctored for years for gas on the stomach, sour stomach or constipation and Christopher states if they will try simple buckthorn bark, glycerine, etc., as compounded in Adler-I-ka, the German appendicitis remedy, they will be surprised at the QUICK benefit. A SINGLE DOSE stops those troubles INSTANTLY.

Coming to Washington C. H. DR. H. H. WILLIAMS GOITER SPECIALIST.

Who has cured over one hundred cases of Goiter without pain or surgical operation, will be at the

Cherry Hotel, Washington C. H., Saturday, June 29.
One Day Only. Hours 9 A. M. to 4 P. M.

GOITRE IS CURABLE.

From the days of Hippocrates down to the present time Goitre has been considered an incurable disease. I considered it so myself at one time, but having so many cases of it in my practice I determined to study the disease for myself, and try for the sake of its unfortunate sufferers to discover a cure for it. How well I succeeded you can learn from some of my many cured patients, or for yourself by giving it a fair trial. My treatment has cured hundreds of cases in the past few years, after every known remedy had failed, which makes me positive when I say I have at last perfected a treatment for GOITRE THAT WILL POSITIVELY CURE IT. It makes no difference if other treatments have failed in your case, hundreds of my patients say the same thing when they come into my care. Almost without exception they begin to note improvement after the first two or three weeks' treatment, which continues until all the goitre is entirely gone and the patient restored to perfect health.

WHY MY TREATMENT IS SUCCESSFUL

I have thoroughly mastered this disease. I have devoted several years of study to this one disease, and I believe I can truthfully say I can cure any case of goitre that is possible for human means to cure. I treat the disease to cure it, and not simply to reduce the swelling. I study each and every case separately, and treat each case individually. I have no "cure-all" as some specialists proclaim. I build up the general health and counteract and remove the poisonous secretions formed in the goitre from the system. I also remove all trace of disease from the affected glands, which makes a return of the goitre practically impossible.

CONSULTATION

If you are afflicted with Goitre you need treatment of some kind. A specialist who has made a life-time study of this one disease is certainly better prepared to give you better results than any other physician. Call and get our Booklet. Consultation and examination free.

Don't Fail to See Dr. Williams On Above Date.

WATCH DAILY HERALD BULLETIN BOARD TONIGHT

For the benefit of the hundreds who are interested in the National Convention, The Herald has placed a bulletin board at the foot of the stairway leading to The Herald office, and will give bulletins from time to time during the convention.

This evening and tonight the proceedings will be wired to The Herald and placed on the Bulletin Board at once.

WATCH THE HERALD BULLETIN BOARD.

Harris And Companions Give Story of Arrest

A short time ago following the arrest of Irvin Harris, colored, who was tried before Mayor of Bloomington and fined \$10 and the costs for exceeding the speed limit while passing through that place on a motorcycle, mention of which was made in the columns of The Herald, and in a signed communication just received, Harris and two companions offer their "side" of the affair.

It was claimed at the time that when the Bloomington Marshal and his deputy, Mr. Evans, went to the Harris home that young Harris sought refuge in a piece of timber, later going to the barn with James Harris and Charles Daniels, where the arrest was made, and it was further claimed that when the officers appeared they sought to resist the arrest of Irvin Harris.

However, the trio make the following statement of the affair, together with another charge which The Herald declined to print:

To the Editor of the Daily Herald, We desire to correct a statement made in your paper of June 11th, in which it was stated that in placing Irvin Harris under arrest for a violation of the speed law, the officers of Bloomington were "forced to

draw a gun to make the arrest, when others of the Harris family started to take a hand in the proceedings." Your informant was deceived or is trying to deceive.

The facts are Ed Evans came to the Harris farm and entered the barn about 6:30 p. m., just after we had come in from work. He drew a loaded revolver, pointed it straight at us without stating any reason whatever for his actions. It was fully thirty seconds before he said, "Consider yourself under arrest." He didn't say who he was placing under arrest; never said what charge there was against any one of us; never showed any authority whatever or writ of any kind. Evans is not an official of Bloomington and we did not know what he meant by such conduct. He may have been a deputy marshal, but we did not know it nor do we know now that he is for he has never shown us any authority to act as such. Irvin Harris is just past 17 and he went along with Evans without any resistance or interference by any one and when it became known what Evans wanted we told Irvin to accompany him to Bloomington.

JAMES HARRIS,
IRVIN HARRIS,
CHARLES DANIELS.

JURY FAILS TO AGREE IN THE ANDERTON CASE

After more than seven hours of deliberation the jury, in the case of Ohio against Elijah Anderson, the Jamestown colored barber, who shot and killed Howard (Jingle) Hickman, a colored man, formerly of this city, disagreed and was discharged.

The jury is said to have stood 9 for acquittal and three for conviction on the charge of manslaughter. Prosecutor Johnson has not determined whether he will have Anderson retried, or call a new trial.

Anderson shot Hickman on the night of March 30th when Hickman

entered his barber shop and started to assault him. Hickman lingered two weeks with a bullet in his brain and then succumbed.

Anderson had previously applied to the marshal of Jamestown for protection, as Hickman had threatened him, but the protection was refused. It is claimed, and when Hickman started to assault Anderson the latter pulled his revolver and fired. The men were brothers-in-law.

Hickman's widow and two small children are living in this city, it is claimed.

Bainter Seized With Violent Fits

"HOGGY" Bainter is suffering from a series of epileptic fits, and his condition has been very bad since Wednesday night at midnight, when the sheriff was awakened by a noise and upon investigating found his prisoner prone upon the hard floor of the jail, beating his hands and face upon the cement floor until the blood flowed.

The man's condition was such that a physician was summoned early in the morning, and found that Bainter's illness was genuine, and that he was not playing "possum" as at first thought. Medicine to soothe him was given, after which he rested some easier.

Two years ago when Bainter was in the jail facing a similar sentence to that of the present, he became afflicted with epileptic fits, or rather was attacked with one, having been subject to them. He was sent to the O. H. E. at Gallipolis, where he was soon released and returned to Washington.

Just what will be done with the man now is a question that will confront Mayor Smith upon his return from Chicago Friday.

MAKES THE NATION GASP.

The awful list of injuries on a Fourth of July staggers humanity. WHERE LIFE IS VERY CHEAP

Danger of Getting in Front of the Guns During Russian War Maneuvers.

Forty-two soldiers were shot during the recent maneuvers of the Russian army. The announcement is stolidly made by the minister of war. He adds, "These men were in advance of the guns."

As guns do not ordinarily shoot backward, the minister's cryptic explanation may be considered superfluous. The incident is, perhaps, interesting chiefly because of the light it throws on Russia's official attitude toward the value of human life. It fits in aptly with the reports of executions, imprisonments and exiles which, coming from all parts of the czar's domains, keep the world informed of the progress of heartless oppression.

It is not surprising that the empire is rocked with discontent, that observers believe the government faces another costly revolution. A nation cannot place so low a value on the lives of its subjects without ultimately reaping its reward in blood and terror.

Accidents in military maneuvers are not uncommon. They have occurred in the United States, and, doubtless, will continue to occur from time to time as long as military training is held a necessary part of every nation's list of obligations. It has remained for Russia, however, to send soldiers "in advance of the guns" to be shot, and for a minister of the czar's government to announce the blunder to the world with as much unconcern, apparently, as he might announce the departure of a detachment for patrol duty on the Persian frontier.

VISIT WAS MOST OPPORTUNE

Artist Calls to Exhibit Work at Moment When Its Desirability Was Being Discussed.

Some years ago a publishing house was preparing to issue a new edition of the writings of Thoreau, writes Charles S. Oicott in Art and Progress. The head of the house and a member of his staff were in consultation about the method of illustration. It was agreed that the pictures must be true to nature; but how to get them was the problem. Artists who do book illustrating could not be expected to go into the woods and make pictures which would in any way assist the text to reveal nature as Thoreau saw it. Photographs would be admirable, but where was the professional photographer to be found who would undertake to go into Thoreau's country in sunshine and rain, in summer and winter, to catch all the phases of nature which Thoreau recorded in his "Journal"? While the two men pondered, a caller sat in the outer office with a large portfolio under his arm. Five years before he had read Thoreau's "Journal," and had taken up his residence in Concord that he might visit the scenes there described. In all seasons and all kinds of weather he had wandered through the woods and over the fields with his camera; passionately fond of nature, he was no less devoted to art. To him, photography was a pastime—it was not his profession. For the pure love of nature and of art, and with no thought of pecuniary gain, he had accomplished the very feat which the two business men had thought so difficult, and by a curious coincidence he appeared at the office to exhibit the result of his work at the precise moment when its desirability was being discussed.

Church Music.

Music has long been notoriously a provoker of discord. Once in my news-hunting days I suffered the ignominy of a scoop on a choir rumpus, and I thereupon formed the habit of lending an anxious ear to rumors of trouble in choir lofts. The average ladder-like Te Deum, built up for the display of the soprano's vocal prowess, has always struck me as an unholy thing. I even believe that the horrors of highly embellished offertories have done much to tighten pursestrings and deaden generous impulses. The presence behind the pulpit of a languid quartette praising God on behalf of the bored sinners in the pews has always seemed to me the profane of anomalies. Nor has long contemplation of vested choirs in Episcopal churches shaken my belief that choir music should be an affair of the congregation.—Meredith Nicholson, in the Atlantic.

Habit That Pleased.

"So you have thought it over carefully and decided that young Money-blower is the man you must marry?" said her father gravely.

"Yes, father," the young woman replied.

"Are you sure that his habits are such as will make for a happy married life?"

"Yes, indeed. He buys a new motor car every year, and that's just the sort of habit I want my husband to have."

Believes in Work.

Anne Morgan, daughter of the financier, who does much work among poor girls and others who earn considerable money through their own efforts, advises the girls constantly to save something. Her advice to them always is: "In times of prosperity, prepare for adversity." Miss Morgan, in fact, is a firm believer that every wealthy girl should be equipped to earn her own living should anything occur to take her fortune away.

British Boy Scouts Have Wireless and Signal Corps

Photos copyright, 1912, by American Press Association.

EACH year sees new developments in the organization of the boy scouts. In this country their energy and enthusiasm have been utilized by the campaigners against the disease bearing housefly, and in England, where the movement was originated and where it has a more marked military aspect than here, wireless telegraphy and signal corps have been formed among youngsters who, if conditions of a few years ago prevailed, would probably be members of juvenile gangs of a more or less mischievous character. As yet only one troop has a wireless installation; it is the Second Eltham association, which owes its equipment to the generosity of Sir Harry North. The boys meet twice a week for instruction and practice, have built their own "aerials" and can erect their installation anywhere. They also have a heliograph section, the members of which are shown at their signal work in the lower of the two photographs.

CALL THAMES 'LONDON' RIVER

Sailors See Stream That Swirls Up From Sea—Unlike That Which Flows Through Country.

London.—The Thames that most of us know, says Ralph D. Paine, in Scribner's Magazine, is a toy river in a fair country of lawns and meadows wonderfully green, of gray manor-houses and parks of ancient oaks, where the levels between the locks are crowded with skiffs, punts and small pleasure steamers and every nook and bight of shaded shore has its picnic party. This is astonishingly unlike the Thames that sailors know. Where it meets the brown tide which swirls up from the sea, they call it London river, and as such it was famed in their chantes when the Yankee packets were storming across the Atlantic and the tall East

Indiamen swung abreast of Gravesend or dropped down past the Nore. No bright plaything for summer holidays is London river, but a crowded road of empire, the turbid thoroughfare of a seaport great and ancient.

Much of this commerce is hidden from the casual eye because the shipping is scattered along twenty-five miles of the stream. In the heart of the city itself the waterfront contains so many stretches of archaic picturesque dilapidation and such compelling associations with a storied past that Elizabethan England is rather suggested than the age of steel and steam and the wireless telegraph. There is no line of modern quays and wharves, no spacious harbor. The

river is a great deal too small for the traffic and large ships must seek the inland docks dug out of the flat landscape far below London.

The coastwise craft and steamers trading with the ports of Europe land in the Upper and Lower pool from London bridge to the reach on the seaward side of Tower bridge, the moor beside dingy warehouses included, obsolete basins behind and tenements where you would never dream of looking to find anything afloat. It is this antiquated part of maritime London which can be seen in glimpses from the bridges or the embankment, the close-packed steamers painted in many colors, the drying barges, the agile tugs and over a haze, blended of smoke and mist which softens and mellow without concealing.

DIVORCE FROM COLD FEEL

Lean, Chilly Little Husband Loses Favour and Warm Wife—He Places Blame on Mother-in-Law.

Pittsburg, Pa.—Because John Wilfer, a wisp of a man weighing 120 pounds, a prominent merchant of Hazlewood, defiantly and vengefully placed his cold feet on his 300 pound wife's warm back, after he had returned home from business and found no fire burning in the bedroom, Judge Cohen in Common Pleas court granted Anne M. Wilfer an absolute divorce.

At the hearing of the case Mrs. Wilfer recited a long story of abuse at the hands of her husband. She claimed that for ten years he had abused her in various ways, such as "dragging her down stairs by the hair," had "beaten her up," "spit tobacco juice on the table and her feet," "pushed a revolver under her nose and yelled, 'Smile that!'" Yet all these indignities Mrs. Wilfer claimed, paled into insignificance in comparison with "placing his ice-cold feet on her warm back."

Wilfer claimed that all their troubles were due to his mother-in-law, who came to live with her daughter, and immediately attempted to assume supervision of his life and the household. Because he would not sign a paper placing his wife's property, valued at \$50,000, in trust, Wilfer said his mother-in-law became a disturber and a menace to his home.

Fancy Dewberries tomorrow 17¢ per quart.!

On the Thames at Richmond.

Mrs. C. A. Teeters celebrated the 14th birthday for her daughter, Martha, by giving her a lovely party at their home on Main street. As guests there were, Charlotte Baker, Helen Hamm, Helen Persinger, Ruth Brownell, Lucile Chapman, Pauline Adams, Emily Palmer, Nellie Stuckard, Katharine Forman, Marguerite Wilson.

The flower contest which they enjoyed was much merriment, and Miss Lucile Chapman the victor.

The annual commencement dance, given by the Bachelors' club at the Pythian Castle, Wednesday evening, proved a brilliant social climax to the commencement season, with the largest attendance ever on record at similar functions.

It was a beautiful ball, the splendid ball room flaunting the blue and gold of the class of 1912 in pennants and festoons, and every rainbow tint in the gowns of the dancers as they circled in the maze of the dance.

There were pretty buds galore, in the glory of their first dance and a bevy of the college set, just home and in radiant spirits.

Miss Lura Norris, of Findlay, and Mr. Stanley Chaffin led the grand march, followed by 125 couples.

Wright's orchestra of Columbus, one of the most popular orchestras in this part of the country, furnished music that brought forth encore after encore.

Smith Brothers served an excellent two-course supper in the banquet hall.

Having all arrangements under complete supervision was the social session committee, Messrs. Stanley Chaffin, Martin Cox, Paul Blessing, assisted by the Class committee, Messrs. Maynard Craig, Chas. Willis, James McDonald, James Ballard.

There was an unusual number of out-of-town guests.

Kenneth Kerr is disabled with a badly sprained arm.

Miss Lura Norris, of Findlay, is Miss Fannie Hyer's guest.

Mr. Sidney Katz, of Piqua, visited his brother, Mr. Leo Katz, this week.

Miss Martha Rowe, of Orient, is the guest of Mrs. Mary Patton and family.

Mrs. Cornelia Baker, of Portsmouth, is visiting her daughter, Mrs. Roy Brown.

Steve Phillips, Jr., was over from Xenia to attend the Bachelors' dance last night.

Mrs. Sarah Patton has as her guest her daughter, Mrs. Jess Grant, of Grove City.

Mr. Frank McCormick has been a business visitor in Bellefontaine this week, returning last night.

Misses Anna and Lizzie Bell went to Middletown yesterday to visit their sister, Mrs. Jennie Bateman.

Miss Ruth Ladd, of Jeffersonville, was the guest of Mrs. Edgar Snyder for the commencement dance.

Misses Opal and Louise Dowden, of Sabina, were the guests of Mr. and Mrs. Tom S. Maddox for the dance.

Mrs. Abe Bergeman and children of Chillicothe, are visiting her parents, Mr. and Mrs. Laman Steinhart.

Miss Marie Pavey, of Sabina, and Miss Ada Simpson, of Wilmington, are the guests of Misses Helen and Jean Palmer.

Miss Edith Campbell and her Sunday school class of girls are enjoying a picnic on the Proctor farm north of town today.

Mrs. John Bixler and son, Jack, arrive from Lafayette, Ind., tonight to be the guests of Mrs. Bertha Miller and son, Oliver.

Dr. Grace Purdon, of Chillicothe, was the guest of Dr. and Mrs. C. C. Hazard yesterday, enroute from New Holland, where she attended the Epworth League convention.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the Signature of *Dr. J. C. Watson*

Harry Hadley is home from Kenyon Theological Seminary to spend the week with his parents, Hon. and Mrs. H. L. Hadley.

Mr. and Mrs. John Perrill and Mr. and Mrs. G. H. Perrill, are in Chicago this week, visiting friends and attending the convention.

Mrs. G. A. Pavey and Mrs. Lewis Wilson, of Sabina, and Mrs. Granville Wallace, of Wilmington, are Mrs. Paul Palmer's guests today.

Miss Regina McDonald had as her guests for the commencement dance, Miss Regina Tyner, of Marion, and Attorney Frank Hunter, of Columbus.

Miss Grant, Miss Hildebrandt, Messrs. Grant and Marshall Kegg, motored over from Grove City to attend the commencement dance last night.

Misses Hazel Gregg and Pauline Foster, of Waverly were guests of Mr. and Mrs. George Gregg for the dance last night and will remain for a visit of a few days.

Mr. and Mrs. Wilson Pero and daughter, Elizabeth, visited Mr. and Mrs. O. S. Tobin the first of the week. Miss Pero remaining Mrs. Tobin's guest while her parents continue a vaudeville tour.

Dr. C. A. Stout, of Cincinnati, visited his parents, Mr. and Mrs. J. A. Stout, of Glendon, this week, enroute to Chicago to attend the National convention as one of the delegates with the famous Blaine club, of Cincinnati.

Mrs. Jess Feagans, Miss Lulu Todhunter, Miss Mabel Calvert, Miss Helen Glascock, Mrs. J. L. Chapman are the guests of Mrs. H. E. Louis (nee Mabel Chapman), for the Epworth League convention at New Holland, O.

Walter Larrimer, of Bloomingburg, leaves next Wednesday, June 26th, for Blackfoot Forest, Montana, to make a practical study of forestry, prerequisite to the Forestry degree, which he expects to take in the Forestry course at the O. S. U. next year.

Mr. and Mrs. Alfred Linsinger, of Danville, Ind., are the guests of relatives in this county, having been called here to attend the funeral services over the remains of Mr. Linsinger's aunt, Mrs. Catherine Dixon, which were held at Greenfield Wednesday.

Mr. and Mrs. Wm. Worthington and daughters, Edith and Jean, left today for Knoxville and Bristol, Tenn., where they will visit Mr. and Mrs. Will Blakely, formerly of Bainbridge. Returning they expect to take the steamer at Norfolk, Va., and make the ocean trip up the coast to New York, also visiting Philadelphia and Washington, D. C.

Vacuum Cleaners for rent—hand or electric—delivered and called for. The Dice-Mark Hardware Co.

DEATHS

PORTER.

Albert Porter, aged 41 years, died Wednesday evening at 4:30 at the residence of his father, Joseph H. Porter, 3 miles east of New Holland. Funeral notice will be announced later.

A FIVE-CENT WASHWOMAN.
In Evanston, Illinois, washwomen get from \$2 to \$2.50 per day, and carfare to and from work. Five years ago they got \$1.50 a day. Naturally wash day is an expensive day there. But now women everywhere are learning of a wash-day worker that only costs a nickel. Easy Task laundry soap does half the work all by itself, saves money, saves time, saves fuel, saves health and saves clothing. Many women say it solves the servant problem.

Depots Combine

The B. & O. and C. & H. & D. depots at Wellston have been consolidated. The B. & O. depot building has been enlarged. H. N. Schoenberger, B. & O. agent at Wellston, has been made joint agent of the two roads in that city.

Latest Convention Wires

Concluded From Page One

Senators Kenyon, Cummins, who are commanding the Taft line-up for the purpose of deciding on compromise candidate. Crane stated after conference that there was reason to believe the factional controversy would be settled.

It is reported that the Roosevelt delegates have taken an option on Orchestra hall in which to hold second convention.

Roosevelt ordered his followers who bolted committee last night to sit with committee today. The Roosevelt men started the row directly after committee met in regard to the order in which contests were to be taken up. The Taft men wanted alphabetic consideration, while the Roosevelt men wanted to start with Texas.

The chairman ruled for Taft men. Halbert, of Minnesota, moved to recess, so his side might confer. Motion voted down. Row started when Chairman told Halbert to sit down. He refused and the Sergeant-at-Arms was ordered to enforce the chairman's order. Halbert then sat down. Ninth Alabama contest considered first.

Convention called to order 12:03, Rev. Walter D. Sumner offered prayer. Watson moved recess till four to await report of Credentials Committee and the motion carried.

Flynn announced resignation as Penna. National Committeeman. Many extra policemen on duty.

They carried night sticks. Sergeant-at-Arms Stones ordered the police chief to "Arrest any senator, judge or what not who starts trouble."

Chairman Root announced any attempts on part of Roosevelt forces to organize a second convention on floor of Coliseum would be thwarted. Those attempting, he said, would be ejected by force if necessary, delegate or no delegate.

Mrs. W. A. Davis, who started stampede yesterday is from Kentucky. As Tillie Hipple of Paducah, she was called "most beautiful girl ever born in Paducah". She is athletic and was once champion shotgun marksman of Kentucky.

Roosevelt after an hour's talk with Governor Hadley issued statement that he will stick. This is taken to indicate he will bolt if delegates with him or not. Hadley emphatically denies reports of a break with Roosevelt. He refused to say whether he would follow Roosevelt if he bolted. Barnes denied he suggested compromise, says he had information Roosevelt was coming to convention and attempt to stampede.

C. P. Taft, president's brother, said: "If Roosevelt wishes to read himself out of party by rump convention let him do so."

Roosevelt men in Credentials Committee agree to confine contests to six in Arizona, two in California, fourteen in Washington and 26 in Texas. Total 48, original contention of Roosevelt men was that 70 to 80 delegates had been fraudulently seated by National Committee.

Ex-Governor Pardee, California, a delegate, said, "Nothing to compromise talk so far as California concerned. Roosevelt is leader of progressives and we stand by him. If Hadley and others do not care to go out that is their business. If we get square deal we will stay in convention. If the roll is not purged of fraudulent delegates we quit. In two hours we can be assembled in another hall."

Roosevelt managers declare bolt to Colonel would take a long, practically solid delegation from Arkansas, California, Idaho, Illinois, Kansas, Maine, Maryland, Minnesota, Nebraska, New Jersey, Ohio, West Virginia, Oregon and Pennsylvania.

Taft men do not credit their claim to votes from delegations representing Georgia, Indiana, Kentucky, Massachusetts, Michigan, New York, North Dakota, Tennessee, Texas and Wisconsin.

There is a growing belief that Roosevelt will come to convention. Taft leaders expect it. Roosevelt followers deny it. Admits he is being strongly urged. His idea would be to start demonstration similar to that of yesterday.

Colonel can get to Coliseum in five minutes and friends think his entrance in midst of excited uproar would turn trick. Taft men confident that majority is stampede proof. Report that Colonel about to release his delegates is considered preliminary in his entrance. He is expected to ostensibly renounce all claim or desire for nomination and come before convention to aid in pure matter of "principle". When he once gets in his friends could thrust crown upon him. Contests going very slowly before Credential Committee. Small chance of report being ready by four o'clock; another recess probable.

LaFollette people jumped into situation with renewed vigor today, working on basis that Roosevelt's attitude opened way for LaFollette as compromise man. Fans with senators likeness distributed.

Credentials Committee, 34 to 14, seated two contested Taft delegates from Ninth Alabama district.

During the recess Roosevelt called a conference of National Committeemen and two delegates from each of Roosevelt states. No information obtained as to reason for conference, but there is little doubt that conference was to determine nature of bolt. Some are for walking out and meeting in another hall. The more conservative favor sticking to regular convention floor and thus be able to lay claim to semblance of regularity.

Bride Objects To Publicity

Dreams of conjugal happiness were shattered, temporarily at least, for Miss Mae Jones and Stanley Brown, a young pair from South Charleston, says the Springfield Sun, when they discovered, after making application for a marriage license yesterday afternoon, their names would be published in the newspapers. This wholly unexpected turn of affairs was not down on their program. They finally concluded that they didn't want a license after all.

Entering the office they made application for a license to Miss Hershey, one of Judge Geiger's assistants. When the license record had almost been completed they asked if it could be kept secret. When they were informed that it was impossible they decided, after a lengthy discussion that they would not take out the license.

Young Brown, who is 21 years old, is a junior in college and he wished to keep his marriage a secret. His bride-to-be, a charming little maid of 19 summers, also seemed averse to publicity.

Young Brown, for a time, seemed ready to face the music, but Miss Jones did not like the idea of her marriage becoming known so soon, and the young couple finally decided to postpone the wedding.

SOCIAL.

There will be a grand social at the Second Baptist church Saturday evening, given by Mrs. Jerry Lee and Mrs. Charles Blaney, for the special purpose of securing means to help rebuild the church. Refreshments and lunch. Come one, come all.

Resolutions Committee Drafting
the Platform.

PLANK BEARERS IN EVIDENCE

Samuel Gompers of American Federation of Labor Among Those Who Sought Recognition—Committee Is Dominated by Taft Men and Will Indorse the President's Policies. Outline of the Party's Declaration of Principles.

Chicago, June 20.—The resolutions committee met promptly to draft the party platform.

The platform committee, it was figured out from the vote, stood 43 to 19 for the Taft side, with Massachusetts not represented. The committee elected Ex-Vice President Fairbanks as its chairman. He was the unanimous choice of the members, and so was W. D. Lewis of Pennsylvania for secretary. The committee then appointed this sub-committee to work on the real platform: Chester H. Rowell, California; Charles Hopkins Clark, Connecticut; H. S. Hadley, Missouri; William Barnes, Jr., New York; William Draper Lewis, Pennsylvania; George Sutherland, Utah; D. Lawrence Groner, Virginia; C. W. Fairbanks, Indiana, and H. Clay Evans of Tennessee. On the sub-committee the Roosevelt side had only three of the nine members, representing California, Missouri and Pennsylvania.

It is said that Governor Hadley of Missouri would present Mr. Roosevelt's platform to the sub-committee, and if the sub-committee rejected it, he would appeal to the full committee. A tentative draft of the Taft platform is in the hands of Charles Hopkins Clark of Hartford, Conn.

Labor Leaders Present.

The sub-committee did not get at its labors until very late, because it was decided that the petitioners for planks who stood outside the room waiting for a chance to present them would be heard by the full committee. There were any number of these plank-bearers, as usual, including Samuel Gompers and a committee from the American Federation of Labor and a committee of the woman's suffragists, including Miss Jane Addams of Hull House, Chicago. Mr. Gompers and his associates were the first to be heard. They had a number of planks looking to improvement of conditions of laboring men.

Mr. Gompers and his committee talked for a full half hour before the full committee. When he came out he admitted that the outlook for his planks was not very encouraging.

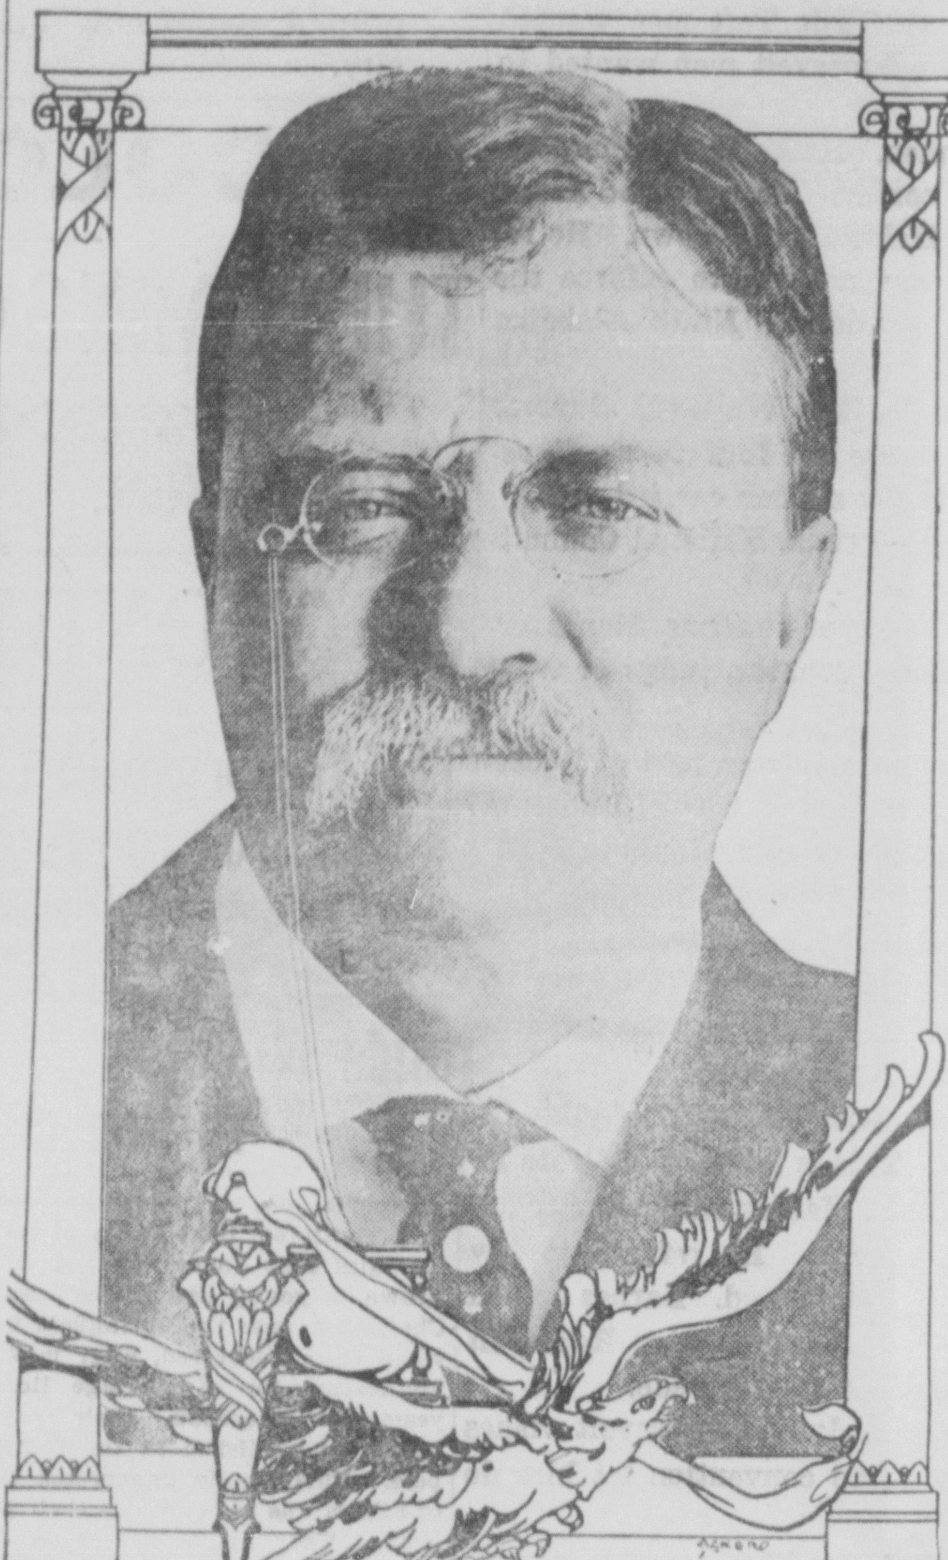

The members of the committee are: Alabama, J. J. Curtis; Arizona, J. T. Williams, Jr.; Arkansas, H. H. Myers; California, Chester H. Powell; Colorado, A. M. Stevenson; Connecticut, Charles H. Clark; Delaware, H. A. Dupont; Florida, J. E. Leo; Georgia, H. L. Johnson; Idaho, F. J. Hogenbarth; Illinois, William F. Purdy; Indiana, C. W. Fairbanks; Iowa, G. D. Perkins; Kansas, A. R. Clark; Kentucky, W. O. Bradley; Louisiana, H. O. Warmouth; Maine, A. E. Stearns; Maryland, William T. Warburton; Massachusetts, no choice; Michigan, William Judson; Minnesota, J. F. Jacobsen; Mississippi, L. K. Atwood; Missouri, Governor H. S. Hadley; Montana, George T. Bagges; Nebraska, E. L. King; Nevada, H. V. Moorehouse; New Hampshire, F. W. Hartford; New Jersey, G. L. Record; New Mexico, H. O. Bureun; New York, William Barnes, Jr.; North Carolina, Cyrus Thompson; North Dakota, P. O. Thorson; Ohio, Karl T. Weber; Oklahoma, J. E. Eckles; Oregon, F. D. Hall; Pennsylvania, William Draper Lewis; Rhode Island, H. F. Lippitt; South Carolina, E. F. Cochran; South Dakota, A. Bogue, Jr.; Tennessee, H. Clay Evans; Texas, William McDonald; Utah, George Sutherland; Vermont, J. L. Southwick; Virginia, D. Lawrence Groner; Washington, C. C. Case; West Virginia, S. B. Montgomery; Wisconsin, W. C. Owen; Wyoming, W. H. Huntley; Alaska, W. W. Hoggett of Summit, N. J.; District of Columbia, William C. Chase; Hawaii, George F. Benton; Philippines, John M. Switzer; Porto Rico, Mateo Fajardo.

ENDS HUNT FOR RICH GIRL.

Often the hunt for a rich wife ends when the man meets a woman that uses Electric Bitters. Her strong nerves tell in a bright brain and even temper. Her peach-bloom complexion and ruby lips result from her pure blood; her bright eyes from restful sleep; her elastic step from firm, free muscles, all telling of the health and strength Electric Bitters give a woman, and the freedom from indigestion, backache, headache, fainting and dizzy spells they promote. Everywhere they are woman's favorite remedy. If weak or ailing try them. 50c at Blackmer & Tanquary.

"I AM THROUGH"

The Rough Rider Announced to His Followers After The Committee On Credentials Rendered Adverse Ruling.

EX-PRESIDENT THEODORE ROOSEVELT.

Deed Of Jealous Woman

Kills Husband When She Entertains
Tales About His Character.

St. Clairsville, O., June 20.—Enraged over reports that Ed Guy, 25, had been devoting his attention to other women in the mining village of Stewartsville Mrs. Guy went to the mouth of the mine of the Big Five Coal company and shot her husband three times with a revolver, killing him instantly. She was surrounded by workmen, but made no effort to escape and was placed under arrest by deputy sheriffs.

Officer Killed in Riots.

Cleveland, O., June 20.—A patrolman was killed, three men were shot and two stabbed in strike riots here. The trouble started on the river front when a party of guards were trying to rescue a nonunion tug fireman from the hands of a crowd of strikers.

Making Plans To Raise Titanic

The raising of the steamship Titanic has been seriously proposed by a New York engineer, says the Mobile Item, who estimates that the work can be done at an expense of \$1,000,000, a small sum when the value of the ship and contents—\$25,000,000—is taken into consideration.

The ocean at the place where the Titanic sank has a depth of approximately two miles, but it is contended by the promoters of the project that, because of the increased density of the water at a great depths, the vessel did not reach the bottom, but remains suspended at the depth where the weight of the steamship was overcome by resistance.

The plan advanced is the use of highly magnetized grappling hooks, operated from immense floats or barges, with which the depths will be literally raked until the magnets come in contact with the steel hull of the Titanic. Then the barges will

be moved apart, gradually drawing the wreck to the surface where the pumps will be set to work.

One thing which seems to have been overlooked by the promoters of the scheme is the fact that, in all probability the wreck of the Titanic, if ever located, will be found many miles from the place where the accident occurred. After the first plunge, owing to the very density which the engineer mentions, the settling of the vessel must have been gradual, and, in all probability, at a decided angle. Great ocean currents course along the edge of the Newfoundland banks, and, accepting the argument that the vessel never actually reached the bottom at its face value, these currents would carry the wreck along until resistance was overcome by decreasing depth and the vessel grounded.

The effort to raise the Titanic, if eventually undertaken, will be watched with interest for, independent of salvage, the world would be glad to have the mystery which surrounds the greatest maritime disaster in history officially cleared up.

Meat Prices Continue Upward.

New York, June 20.—One of the biggest Washington Market merchants said that the present high price of beef is locally to persist all summer and that other market men with whom he had talked agreed that in a month from now it will be still higher. Beef at wholesale jumped the usual quarter of a cent, but there was no general retail advance.

Cure Your Backache and Rheumatism WITH FOLEY KIDNEY PILLS

Backache drags on your vitality. Saps your strength. Weakens your endurance. Hampers you in your work. Besides that, it means something wrong with your kidneys; a weakness, an inflammation, a breaking down, may be, of the kidney tissues. Foley's Kidney Pills is the true answer. They will help you QUICKLY, strengthen and heal your kidneys, regulate the action of your bladder, and drive out Backache and Rheumatism. They will make a strong, well man of you. No habit forming drugs. Try them.

Blackmer & Tanquary.

AN IDEAL ISLAND

Romance of Centuries Hangs
About Porto Rico

One Hundred Years Before Jamestown
Arose From Wilderness the Spaniards Were Living on This
Gem of the Indies.

San Juan, Porto Rico.—Quaint and picturesque and heavy with the romance of four centuries as a possession of the superstitious and fiery Spaniards is Porto Rico, to which Edward M. Balnter, principal of the Central high school of this city, goes next month as commissioner of education. As the reader is aware, Porto Rico became a colony of the United States at the end of the Spanish-American war, and a wonderful development has taken place in the tropical island the 14 years since.

Porto Rico had been settled a century by Europeans before Jamestown was founded or the Dutch sailed up the Hudson river. The second century had begun before the Pilgrim fathers waded from the Mayflower to the dry Massachusetts shores. Closely associated with its early history are the names of Juan Ponce de Leon, Nicholas de Ouando, Diego, Columbus, Drake, Hawkins, Lord Cumberland, Salazar, Sotomayer and others whose struggles with the rebellious Indians, marauding Caribs, pirates and buccaneers in their attacks on the primitive city of San Juan and other more defenseless settlements furnish a story replete with adventure, warfare and romance.

Christopher Columbus touched at Porto Rico on his second famous voyage to the new world. Ponce de Leon he of the search for the waters of everlasting youth, built the first town upon it and called it San Juan. San Juan became the capital of the island in 1508, and today holds the same position. It is a typical Spanish city.

If the traveler is fortunate he will sail into San Juan bay in the early morning when, against a gorgeous tropical sunrise, the blue of the ocean the gray and moss covered walls, the white parapets of Casa Blanca and the many tinted dwellings rising terrace like from the bay to the heights overlooking the sea form a riot of colors. On the other side of the harbor vivid green cane fields, interspersed with

Luxuriant Vegetation in Porto Rico.

dark tinted palms, the soft colors of an occasional settlement and the background range upon range of hills still enveloped in the purple shadows of the dawn, complete the beauty of the scene.

The sound of the sunrise gun booms forth from the grim and battle scarred ramparts of old Morro, the impregnable fortress which the cannon balls of many nations have failed to crumble, as the ship approaches the narrow entrance to the land locked harbor. Passing the gray and ancient city wall, its heights crowned by the barracks, Casa Blanca, the residence of the military commander and Santa Catalina palace, now the headquarters of the civil administration and the residence of the governor of the island, in which Mr. Balnter will have a home, the vessel threads its way between buoys marking the channel. Across the harbor the quaint fishing village of Palo Seco is seen in a grove of cocoanuts, and farther along the beach Catano, another small village, the delicately tinted houses from a distance adding to the charm of the picture.

WOMAN IS CHASED BY MOOSE

Husband Kills Animal, Which, It Is
Believed, Escaped From the
Whitney Preserve.

Pittsfield, Mass.—As Mrs. Lawrence Clement was leaving her house at Becket recently a big bull moose suddenly appeared in the front yard and chased her into the barn. She was so frightened she fell to the barn floor in a faint.

Mr. Clement, who is a constable, was near by and hastened by a back route to the house for his shotgun. He killed the moose as it darted for a thicket.

The moose weighed at least one thousand pounds. Mrs. Clement was under the care of a physician tonight. It is believed the moose is one that escaped from Harry Payne Whitney's preserve, on October mountain, last fall.

The Grand Army Men Meet at Springfield

Annual State Encampment Under
Way at Springfield.

Springfield, O., June 20.—The arrival of the Old Guard of Columbus was one of the features of the opening day of the annual state encampment of the G. A. R. They created a stir as they marched through the streets and were applauded everywhere.

Dr. C. W. Bloodgood of Cincinnati will be elected commander without opposition.

A resolution rebuking Governor Harmon for appointing a civilian, Joseph P. Elton, to the head of the Xenia O. S. & S. O. Home was introduced and will be acted upon later. A resolution for the incorporation of the national G. A. R. met with considerable opposition and was referred to the several posts of the state.

NO MORE RUNNING SORES.

Brown's Drug Store Sells an Ointment Called San Cura That is
a Positive Cure.

It matters not how old, persistent or poisonous the sore is, San-Cura Ointment, the powerful antiseptic, will draw out every particle of poison and promptly heal the sore.

So sure of this are the owners, the Thompson Medical Co., that they have authorized Brown's Drug Store to return the purchase price if San Cura Ointment doesn't do all this paper says it will do. No fairer offer was ever made.

B. D. Dutton, Titusville, Pa., says: "My arm was covered with twenty-four running sores and swollen to twice its natural size. San Cura Ointment removed the pain, drew out the poison and healed the arm in an incredibly short time. It is the greatest compound for healing I ever used."

The mighty healing powers of San Cura Ointment are little short of marvelous. It gives instant relief, and is guaranteed to cure salt rheum, eczema, bleeding, itching or protruding piles, ulcers, boils, carbuncles, chapped hands, and chilblains. For cuts, burns, scalds and bruises, it stops all pain quickly and heals promptly. 25c and 50c a jar. By mail on receipt of price, if your druggist is out of it or does not keep it.

San Cura Soap.

For tender, itching or irritable skin, wash with San Cura, the only antiseptic soap that soothes and heals, and kills all germs of disease. It will cure pimples, blackheads, and make the complexion clear and attractive. 25c at Brown's Drug Store.

Mail orders for San Cura Ointment and Soap filled by Thompson Medical Co., Titusville, Pa.

Convicts To Dig Ditches

Thirty convicts from the Ohio penitentiary will be sent to the Dayton State hospital within a few days to begin work of laying 10,000 rods of tile to drain a swamp of 175 acres on the institution's farm. The job will last through the entire summer. President Thurman, of the state board of administration, who announced the plan Monday, is enthusiastic over the scheme.

The board has several gangs of men at work about the state institutions and has found the plan satisfactory. There have been no escapes from the honor gangs thus far and many repairs have been made at reduced cost.

Mr. Thurman said the product of the swamp at the Dayton institution, when placed under cultivation, will pay for the improvement in two years. Draining of the swamp has been attempted for many years, but appropriations have been lacking. The board will secure the money needed under the new scheme out of the fund for ordinary repairs.

At the tuberculosis sanitarium at Mt. Vernon, the state brought under cultivation a considerable tract of land by expending a comparatively small sum for drainage.

Insurance Laws In England Best

Every country has its problems and its efforts in the way of meeting them. England has an insurance law for working men and women that seems to be better than anything in that line that we have in this country. Small deductions are made from their wages and their employers are compelled to contribute a similar amount, to which the state adds a further contribution, these three items forming the premium. Male or female workers who earn up to \$2.50 per week have to give 2 cents per week, their employer 12 cents per week and the state 4 cents per week. From this the prices grade up to the worker who earns as much as \$15.20 per week, who has to pay 6 cents, the employer 6 cents and the state 4 cents. Domestic servants pay 6 cents, employers 6 cents and the state 4 cents.

The benefits derived under the scheme are medical relief and a small sum for maintenance during illness, a life pension if permanently infirm, and also an allowance in case of unemployment except when the idleness is a result of a strike. Sick allowances are \$2.50 a week for three months and then \$1.25 a week up to the end of six months. The permanent disablement allowance is \$1.25 a week.

It is claimed that eight or ten million men and women are the beneficiaries of this splendid law.

MAN COUGHS AND BREAKS RIBS.

After a rightful coughing spell a man in Neenah, Wis., felt terrible pains in his side and his doctor found two ribs had been broken. What agony Dr. King's New Discovery would have saved him. A few teaspoonfuls ends a late cough, while persistent use routs obstinate coughs, expels stubborn colds or heals weak, sore lungs. "I feel sure it's a Godsend to humanity," writes Mrs. Effie Morton, Columbia, Mo., "for I believe I would have consumption today, if I had not used this great remedy." Its guaranteed to satisfy, and you can get a free trial bottle or 50-cent or \$1.00 size at Blackmer & Tanquary.

Snakes in India

Last year 22,478 deaths occurred in India from snake bites, and 2,400 persons were killed by wild animals. The deaths caused by snakes and wild animals in the province of Burmah in 1910 amounted to 10,273 and 80 respectively. The number of cattle killed in India amounted to 93,074 by wild animals and 10,900 by snakes. Of the deaths of cattle in Burmah 7,851 were caused by wild animals and 6,588 by snakes. Tigers and leopards were the most destructive animals; elephants, bears, wolves, hyenas, etc., being also responsible for fatalities. Rewards amounting to \$47,725 were paid by the government for the destruction in all India of 91,104 snakes and 19,282 wild animals.—Exchange.

Stability

Characterizes the Buckeye State Building and Loan Company, Rankin building, 22 West Gay Street, Columbus, Ohio. Its mortgages cover over twenty-five million dollars' worth of farms and Columbus homes. Home owners cling to their homes and pay the mortgages. So carefully has this company loaned its money it owns no real estate. Five per cent. paid on time deposits. Assets \$5,700,000. Write or call for booklets.

THE LEAKS IN A PURSE

can be stopped if you have been paying too much for your living expenses by buying your meats and poultry from this shop. Our meats are choice and cut from the primest beef, mutton, lamb, pork. You can't find better meats or lower prices at any place.

The job will last through the entire summer. President Thurman, of the state board of administration, who announced the plan Monday, is enthusiastic over the scheme.

The board has several gangs of men at work about the state institutions and has found the plan satisfactory. There have been no escapes from the honor gangs thus far and many repairs have been made at reduced cost.

Mr. Thurman said the product of the swamp at the Dayton institution, when placed under cultivation, will pay for the improvement in two years. Draining of the swamp has been attempted for many years, but appropriations have been lacking. The board will secure the money needed under the new scheme out of the fund for ordinary repairs.

At the tuberculosis sanitarium at Mt. Vernon, the state brought under cultivation a considerable tract of land by expending a comparatively small sum for drainage.

Insurance Laws In England Best

Every country has its problems, and its efforts in the way of meeting them. England has an insurance law for working men and working women that seems to be better than anything in that line that we have in this country. Small deductions are made from their wages and their employers are compelled to contribute a similar amount, to which the state adds a further contribution, these three items forming the premium. Male or female workers who earn up to \$2.50 per week have to give 2 cents per week, their employer 12 cents per week and the state 4 cents per week. From this the prices \$7.50 up to the worker who earns as much as \$15.20 per week, who has to pay 6 cents, the employer 6 cents and the state 4 cents. Domestic servants pay 6 cents, employers 6 cents and the state 4 cents.

The benefits derived under the scheme are medical relief and a small sum for maintenance during illness, a life pension if permanently infirm, and also an allowance in case of unemployment except when the idleness is a result of a strike. Sick allowances are \$2.50 a week for three months and then \$1.25 a week up to the end of six months. The permanent disablement allowance is \$1.25 a week.

It is claimed that eight or ten million men and women are the beneficiaries of this splendid law.

MAN COUGHS AND BREAKS RIBS

After a rightful coughing spell a man in Neenah, Wis., felt terrible pains in his side and his doctor found two ribs had been broken. What agony Dr. King's New Discovery would have saved him. A few teaspoonfuls ends a late cough, while persistent use routs obstinate coughs, expels stubborn colds or heals weak, sore lungs. "I feel sure it's a Godsend to humanity," writes Mrs. Effie Morton, Columbia, Mo., "for I believe I would have consumption today, if I had not used this great remedy." Its guaranteed to satisfy, and you can get a free trial bottle or 50-cent or \$1.00 size at Blackmer & Tanquary.

Snakes in India

Last year 22,478 deaths occurred in India from snake bites, and 1,400 persons were killed by wild animals. The deaths caused by snakes and wild animals in the province of Burmah in 1910 amounted to 19,273 and 80 respectively. The number of cattle killed in India amounted to 93,074 by wild animals and 10,900 by snakes. Of the deaths of cattle in Burmah 7,851 were caused by wild animals and 6,588 by snakes. Tigers and leopards were the most destructive animals; elephants, bears, wolves, hyenas, etc., being also responsible for fatalities. Rewards amounting to \$47,725 were paid by the government for the destruction in all India of 91,104 snakes and 19,282 wild animals.—Exchange.

Stability

Characterizes the Buckeye State Building and Loan Company, Rankin building, 22 West Gay Street, Columbus, Ohio. Its mortgages cover over twenty-five million dollars' worth of farms and Columbus homes. Home owners cling to their homes and pay the mortgages. So carefully has this company loaned its money it owns no real estate. Five per cent. paid on time deposits. Assets \$5,700,000. Write or call for booklets.

THE LEAKS IN A PURSE

can be stopped if you have been paying too much for your living expenses by buying your meats and poultry from this shop. Our meats are choice and cut from the primest beef, mutton, lamb, pork. You can't find better meats or lower prices at any place.

RUBE MARQUARD'S GREAT TRIUMPH OVER PHILLIES

WITH all due respect to the wonderful pitching of Christy Mathewson and the vaunted speed of the Giants, McGraw, with all his strategy and experience, could not have won the flag in 1911 without the help of Rube Marquard, who turned the "dope" of a score of critics topsy turvy. Alluded to the season previous as the prize "lemon" in the game, he proceeded to reverse a snap opinion that had made him a butt of ridicule in two major leagues.

That Marquard led the National league pitchers in 1911 is incidental but important. That he came near reaching a height of pitching fame attained by few of his clan is the burden of this story.

Although Marquard had been lambasted by the critics, had been dubbed a failure and stamped with the brand of the minor leaguer, all doubt about his commanding ability was swept away on Friday, September 1, 1911, by his wonderful pitching in a game with the Phillies.

On this date the Giants were in a desperate struggle for possession of the lead which would bring the league pennant to Gotham.

In a nine inning game it is necessary to retire twenty-seven men. Just that number faced Marquard plus one. Of these ambitious athletes ten fanned the summer breeze. Fourteen popped easy flies. Two managed to roll gentle grounders to Rube himself, and Fletcher threw out the twenty-seventh man.

In the sixth inning, Ludrus of home run fame, with two strikes called, made the hit, the lone, accidental, single blow that was gleaned from one of the best exhibitions of pitching ever seen on any diamond.

Many no-hit games have adorned the pages of baseball history, but invariably they have been accomplished through the aid of the men behind. In the moment of need a near miracle has always been performed to help the pitcher set up such a record. Marquard required no help. The faint, shadowy, suspicion of support was enough. One run was all that was needed to win the game, and in the eighth round the Giants pushed two lucky tails over the plate.

Rube Marquard had achieved his greatest deed on the diamond, disarmed his critics and proved that he could pitch his team-mates to victory even when a possible world's record hung in the balance on every ball pitched.

Each of Rube's frequent appearances on the following five weeks' trip was marked by sensational displays of skill. The flag was won and when the two champions returned to the Polo Grounds the cheering throngs paid hearty tributes to the once ignored failure who had passed through the fire of adverse criticism and led all the pitchers of the National league.

FAMOUS "BONEHEAD" PLAYS ON MAJOR LEAGUE DIAMONDS

Explained by Leading Baseball Players to

HUGH S. FULLERTON

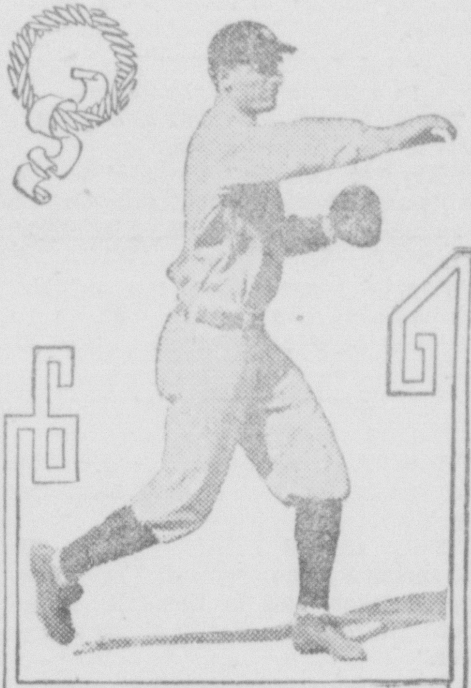

BY GEORGE J. MORIARTY,

Veteran Third-Base Man Detroit Tigers, Who is Considered One of the Brainiest and Most Popular Players in the American League.

When a ball tosser pulls an iron-headed play he usually immediately wishes all recollection of the said play to vanish forever. It doesn't, as he realizes the next time he boots a ball or muffs a fly. This is a case of rattling a skeleton that probably was buried long ago—except in my memory.

To reach the time and the place where my "boot" came off, I must turn back the history pages to the year 1905 and find myself in Minneapolis with the Toledo team of the American Association. The season had nearly ended and there had been a hot scrap for the base stealing honors throughout the year. Charlie Hemphill and Ollie Pickering had piled up a big bunch of stolen sacks, and at the time I did not own enough pillows to feel safe about leading in that department at the end of the season.

We had Minneapolis beaten 7 to 1 in the seventh inning of this battle. I started our half of the eighth with a drive to right center, which I judged should have netted me three bases easily had I cared to run it out. When

George J. Moriarty.

I reached first base on the hit I pulled up lame, limping all around to make it good. I figured we had the game sewed up, and my object was to stop at first, then steal second and third, and thereby add a steal or two to my credit, and incidentally increase my lead over the rival bag snipers.

The play turned out fairly well, as far as my average went, but pretty rotten for the team itself. I succeeded in stealing both bases, but while I was busy boosting my average two men had been retired on fly balls to the outfield, the third one went out, and I was left on third base. Then Minneapolis came in and proceeded to show how uncertain baseball is by scoring six runs by terrific hitting, tying up the count 7 to 7 before we could get them headed off. Then they got chesty, stopped us and won the game in the tenth inning. Had I made three bases on my hit, as I should have done, and not waited to steal second and third, I could have trotted home on the first fly out of the inning and the game would have been ours by a score of 8 to 7 at the end of the ninth, as Minneapolis failed to score in their half. I always was glad that we stalled off the defeat until the tenth to give everyone a chance to forget what I had done before it was over. My supposedly bright play in stalling in order to fatten my own average proved to be a terrible bone, the worst mistake I ever made. Still, it helped me a lot, as it showed me the foolishness of playing for individual records and the worse foolishness of thinking a game is won before it is over.

MOVE ON NOW!
says a policeman to a street crowd, and whacks heads if it don't. "Move on now," says the big, harsh mineral pills to bowel congestion and suffering follows. Dr. King's New Life Pills don't bulldoze the bowels. They gently persuade them to right action, and health follows. 25c at Blackmer & Tanquary.

NOTES of the DIAMOND

Denver has released Pitcher Joe Pfeffer.

John McGraw has asked for first valuers on Al Demaree.

The Giants are playing better ball this year than was expected.

Cleveland has signed Kenneth Nash, shortstop of Brown university.

Ten Million, almost a big leaguer, is playing with Sioux City now.

Hank O'Day announces that he will hang a \$50 fine on every player who isn't in bed by 11:30.

Jackson of the Boston Braves is starting to hit the same as last year, when he set the league afire.

Another vote on the time of starting games in New York will be taken, the balloting to continue until July 5.

Dave Robertson, said to be the best pitcher developed in the South this spring, will join the Giants soon.

Baltimore will grab a couple of Princeton players—Cameron, a third baseman, and White, a shortstop.

Bob Unglaub, the one-time famous major league player, has been unconditionally released by Baltimore.

Connie Mack still smiles in the face of adversity. "The boys will get together some of these days," he says.

Young Saier is playing a wonderful game for the Cubs. Some of his stops of low throws at first are magnificent.

They say that the watch Philadelphia fans gave Kid Gleason is an ornate affair that can do everything but talk.

Bill Bergen, who used to backstop for the Brooklyn Superbas, is doing good work for Jack Dunn's Baltimore team.

The St. Louis Browns added some real ball players to its roster this spring. But they're back at the old stand.

Jack Hendricks' Denver team, winner of the Western league pennant last season, is out in front and going strong.

The prospects of President Charles Ebbets dedicating his new ball park with a first-division club are remote at present.

The New York American league team purchased Outfielder Maloney from the Brockton team in the New England league.

There have been a number of good throws to the plate from the outfield on New York fields, Red Murray being especially proficient.

It is beginning to be apparent that all teams look alike to the White Sox, who continue to win, regardless of who opposes them.

Clark Griffith is after Eppa Rixey, the Virginia southpaw, and has made the youngster a tempting offer, according to advices.

Pitcher Bill Burns, who has played a game or two with almost every club in the big leagues, has been shipped back to Minneapolis.

Maybe Ed Sweeney has to guess what Ford throws, as has been claimed, but he is a shark at doing so. They make very few battery errors.

Eddie Collins is a hero. The Athletics' second sacker went into the grandstand at New York and beat out a fire with his bat. That's one hit Eddie doesn't get credit for in the official averages.

Badly Shocked By Live Wire

Orville Leveck, operator of the moving picture machine in the Wonderland theater, was severely shocked and badly frightened about 9:30 Wednesday night when he placed a pair of pliers against a wire charged with 110 volts of electricity.

Leveck was operating the machine at the time the affair occurred, and he had no more than touched the wire than he emitted a series of screams which caused no little excitement for a few moments. The pictures stopped and the audience was soon astir to ascertain the cause of the screams.

Fortunately the current was shut off and young Leveck was found to be not seriously injured, although frightened badly.

Rains Beneficial To Growing Crops

The recent rains have proven the salvation of the corn crop so far, and added greatly to the maturing wheat and other crops, being worth tens of thousands of dollars to Fayette county farmers.

The dry weather had become so pronounced in many sections that it threatened to do great injury to corn, and with favorable weather the corn will now make a record growth.

IMPERIAL REBECCAS.

There will be a meeting of the Imperial Rebecca lodge at I. O. O. F. hall, Thursday evening, June 20th, 7:30 o'clock.

STELLA M. PLYLY, N. G.

LULU LARRIMER, Secy.

MOVE ON NOW!

says a policeman to a street crowd, and whacks heads if it don't. "Move on now," says the big, harsh mineral pills to bowel congestion and suffering follows. Dr. King's New Life Pills don't bulldoze the bowels. They gently persuade them to right action, and health follows. 25c at Blackmer & Tanquary.

NOTES of the DIAMOND

Denver has released Pitcher Joe Pfeiffer.

John McGraw has asked for first waivers on Al Demaree.

The Giants are playing better ball this year than was expected.

Cleveland has signed Kenneth Nash, shortstop of Brown university.

Ten Million, almost a big leaguer, is playing with Sioux City now.

Hank O'Day announces that he will hang a \$50 fine on every player who isn't in bed by 11:30.

Jackson of the Boston Braves is starting to hit the same as last year, when he set the league afire.

Another vote on the time of starting games in New York will be taken, the balloting to continue until July 5.

Dave Robertson, said to be the best pitcher developed in the South this spring, will join the Giants soon.

Baltimore will grab a couple of Princeton players—Cameron, a third baseman, and White, a shortstop.

Bob Unglaub, the one-time famous major league player, has been unconditionally released by Baltimore.

Connie Mack still smiles in the face of adversity. "The boys will get together some of these days," he says.

Young Sailer is playing a wonderful game for the Cubs. Some of his stops of low throws at first are magnificent.

They say that the watch Philadelphia fans gave Kid Gleason is an ornate affair that can do everything but talk.

Bill Bergen, who used to backstop for the Brooklyn Superbas, is doing good work for Jack Dunn's Baltimore team.

The St. Louis Browns added some real ball players to its roster this spring. But they're back at the old stand.

Jack Hendricks' Denver team, winner of the Western league pennant last season, is out in front and going strong.

The prospects of President Charles Ebbets dedicating his new ball park with a first-division club are remote at present.

The New York American league team purchased Outfielder Maloney from the Brockton team in the New England league.

There have been a number of good throws to the plate from the outfield on New York fields. Red Murray being especially proficient.

It is beginning to be apparent that all teams look alike to the White Sox, who continue to win, regardless of who opposes them.

Clark Griffith is after Eppa Rixey, the Virginia southpaw, and has made the youngster a tempting offer, according to advices.

Pitcher Bill Burns, who has played a game or two with almost every club in the big leagues, has been shipped back to Minneapolis.

Maybe Ed Sweeney has to guess what Ford throws, as has been claimed, but he is a shark at doing so. They make very few battery errors.

Eddie Collins is a hero. The Athletics' second sacker went into the grandstand at New York and beat out a fire with his bat. That's one hit Eddie doesn't get credit for in the official averages.

Badly Shocked By Live Wire

Orville Leveck, operator of the moving picture machine in the Wonderland theater, was severely shocked and badly frightened about 9:30 Wednesday night when he placed a pair of players against a wire charged with 110 volts of electricity.

Leveck was operating the machine at the time the affair occurred, and he had no more than touched the wire than he emitted a series of screams which caused no little excitement for a few moments. The pictures stopped and the audience was soon astir to ascertain the cause of the screams.

Fortunately the current was shut off and young Leveck was found to be not seriously injured, although frightened badly.

Rains Beneficial To Growing Crops

The recent rains have proven the salvation of the corn crop so far, and added greatly to the maturing wheat and other crops, being worth tens of thousands of dollars to Fayette county farmers.

The dry weather had become so pronounced in many sections that it threatened to do great injury to corn, and with favorable weather the corn will now make a record growth.

IMPERIAL REBECCAS.

There will be a meeting of the Imperial Rebecca lodge at I. O. O. F. hall, Thursday evening, June 20th, 7:30 o'clock.

STELLA M. FLYLY, N. G.

LULU LARRIMER, Secy.

candidates for president and United States senators; revision of the tariff in accordance with the findings of a tariff board an industrial committee to report the benefits which workingmen derive from the protective tariff; the appointment of a central national body, similar to the interstate commerce commission, to enforce publicity of the affairs of large corporations and to regulate their methods of conducting business; a revision and strengthening of the monetary laws, with a view to making the financial system of the country more responsive to modern demands and condemning any plan that would result in a centralization of credit; the addition of two battleships every year to the navy, and the re-establishment of the country life and the conservation commission.

TENTATIVE PLATFORM

What Leaders Desire Republican Convention to Indorse.

Chicago, June 20.—The following is the tentative draft of the platform of the Republican party as it has been outlined by the leaders who have been working for the past four days on that document:

"The Republican party declares its unchanging faith in government of the people. It reaffirms its devotion to the fundamental principles of constitutional government established by the fathers; those principles which make provision for orderly and effective expression of the popular will, for the protection of civil liberties and the essential rights of man and for the interpretation of the law by an independent and untrammelled judiciary. It will take no part in either the changing or the overturning of the American form of government.

"The Republican party is a party of progress and it is prepared to go forward with the solution of those new problems which social, economic and political developments have brought into the forefront of the nation's interest. It will strive to safeguard the public health, to limit effectively the labor of children who should be at school, to protect wage earners in dangerous occupations, to substitute the principle of workmen's compensation for suits at law, to recognize their claims for injury, to obtain public ownership and control of those natural resources that are still the public property, and to satisfy the just

demands of the study and solution of complex and constantly changing problems of social welfare.

"In dealing with these questions it is vitally important that the rights of every individual to the freest possible development of his own powers and resources and to the control of his own justly acquired property shall not be interfered with or destroyed.

"The Republican party reaffirms its intentions to uphold at all times the authority and integrity of the courts, both state and federal, and it will ever insist that their power to enforce their processes and to protect life, liberty and property shall be preserved inviolate.

"The Republican party is opposed to special privilege and to monopoly. It placed upon the statute books the anti-trust act of 1890, and it has consistently and successfully enforced the provisions of that law. It will take no backward step to permit the re-establishment in any degree of conditions which were intolerable.

"The Republican party will support the prompt scientific inquiry into the causes which are operative both in the United States and elsewhere to increase the cost of living, and when the exact facts are known, to take the necessary steps to remove any abuses that may be found to exist in order that the cost of the food, clothing and shelter of the people may in no way be unduly or artificially increased."

CHANGES HIS MIND

Heney Bolts Credentials Committee Hearing, but Returns.

Chicago, June 20.—Francis J. Heney of California led a revolt of the 79 Roosevelt members of the credentials committee. Heney, addressing the committee, said:

"The Roosevelt contesting delegates will have a hearing in the Florentine room in the annex at once. We have left the meeting room inside because they have passed a resolution limiting the hearing in all contests to five minutes for each district, with 10 minutes permitted for arguments in general contests. We will not stand for this and we don't consider it any hearing at all."

After Mr. Heney and his colleagues on the credentials committee left the committee room, Jesse Tolerton of Jefferson City, Mo., came to the doors of the committee room and, swinging them open, with both arms aloft, cried, "You newspaper men, come in." The newspaper men filed into the room, but were quickly obliged to retire, because the committee had not yet passed upon the question of admitting them. The spectators in the anteroom also swarmed through the

doors and the police had to be called in to quell what promised to be an incipient riot. Mr. Heney and his colleagues were gone about long enough to go up to the Congress annex and back, when he returned with Chairman Dixon of the Roosevelt committee, who apparently was preventing him from bolting prematurely. Mr. Heney and his colleagues went back in the committee room at 11 o'clock.

Shortly after Mr. Heney left the convention hall it was announced the committee had changed its plan and agreed to give 15 minutes for each district hearing and 30 minutes for each state hearing, the same that the national committee allowed to hear all contests.

HADLEY LOST OUT

Made a Game Fight but is Overruled by the Convention.

Chicago, June 20.—The arguments for and against the motion of Governor Hadley of Missouri to strike from the temporary roll, as prepared by the national committee, the delegates whose seats were contested before the committee to the number of some 78 and to put in their places on that roll the contestants, was begun as soon as the convention had been called to order by Senator Root, Mr. Root stated that through an agreement between Governor Hadley and Representative Watson of Indiana, each side would have an hour and a half to present its case. Governor Hadley was the first speaker. He was greeted with much applause.

After a lengthy and acrimonious debate, former Congressman Watson moved to refer the Hadley motion to the committee on credentials.

Governor Deneen of Illinois moved an amendment to Watson's motion that no delegate whose status was in question could not be allowed to vote in the selection of the members of the committee on credentials or on the report of that committee. The amendment was in the interests of the Roosevelt contingent.

Mr. Watson then moved to table the Deneen amendment. This brought the whole matter fairly and squarely before the convention. If Deneen's amendment was tabled it meant a defeat for the Roosevelt contingent. If Deneen's amendment was not tabled it meant that the Roosevelt contingent had won in their contention. It meant that none of the contested delegates could vote and it meant ultimately a clear-cut majority in the convention for the Roosevelt men.

Deneen's amendment was tabled by a vote of 564 to 510. The convention then adjourned until today noon, after the committees on credentials, resolutions and minor committees of the convention were appointed.

MAKING TASKS EASY.

There are lots of magazines printed for the purpose of telling women how to make their work lighter. But you can't reduce labor by reading about it. All the philosophy and theory in the world won't help you out on wash day unless you use Easy Task soap, which lives up to its name and makes washing an easy task by doing half the work. Get it at your grocers'.

Nell—I think women take up entirely too much time at the looking glass. I very seldom spend idle moments at my mirror.

Belle—But, my dear, that may be because it takes some reflection to face the truth.

He Agreed.

"What you need," said the wordy medic in his ponderous way, "is an enlargement of your daily round, a wider circle of activity."

"Mebby that's right," said the patient. "I'm a bareback rider in a one ring circus."

Fish Story.

Knicker—A month ago I told a lie on the water.

Bocker—Well?

Knicker—I cut open the fish I caught today and found he had swallowed it.

NECESSARILY.

The Comedian—Yep, we played to standing room only in Squeedunk. The Tragedian—Indeed!

The Comedian—Sure thing. You see the sheriff had attached and removed all the seats in the opera house.

Explains Reno.

The matrimonial ship Doth sail a stormy sea, And who attends the trip When hearts can not agree.

A Suggestion.

"You heed some uplift in that play." "Then why not put in an elevator scene?"

Alton B. Parker Will Preside

Special to Herald.

Baltimore, Md., June 20th.—Judge Alton B. Parker, Democratic nominee for president in 1904, has been chosen by the Democratic National Committee to preside as temporary chairman at the Democratic National Convention next week.

Urey Woodson, of Kentucky, was also named temporary secretary, and John I. Martin, sergeant-at-arms of the convention by the committee.

JUST A LITTLE SMILE

A Fusillade.

"Here is a sad story alleged to have been handed down from the stone age."

"Tell me about it."

"Instead of merely returning the letters of a rejected swain, a peevish damsel threw them at him."

"Oh, well, even though there were a hundred letters, each considerably heavier than a brick, I don't suppose she hit him once."

"That's where you are mistaken. According to this account, women could throw tolerably straight in the stone age."

Puzzling Predicament.

A visitor at a western town observed a resident with his face wrapped up in a huge woolen rag.

"What's the matter, uncle?" inquired the visitor.

"I'm in the all-firedest fix a man ever got inter," was the reply.

"Perhaps I can help you."

"No, you can't," groaned the sufferer. "I've got a jumpin' toothache and the only dentist in town is my worst enemy."

In a Militant Neighborhood. The caller rang the bell of a characteristic London residence.

"Sorry to trouble," she said to the resplendent footman, "but can you tell me what are Mrs. Beethoven's 'at home' days?"

"Beggin' your pardon, ma'am, the so-bumbled flunkie replied, 'she 'as no 'ome days at present. She's in jail."

Always Out of a Job.

"You insist on telling people you are lookin' fer work," said Meandering Mike.

"Yes," replied Plodding Pete; "in the spring I go north to say I'm a pineapple picker, and in the fall I go south and tell 'em I'm a skate sharpener."

WOES OF SUBURBANITE.

"Oh, yes; I bought a country place, laid out \$2,000 on it, and now it's worth twice what I paid for it."

"What did you pay for it?"

"Five hundred dollars."

A Motor God.

Dan Cupid doesn't get the call, These latter days, I ween, Unless he has the wherewithal To pay for gasoline.

An Inducement.

Jones—Don't you think it is time to make our wives drop this suffragette nonsense?

Smith (thoughtfully)—I don't know about that. They say they are wearing 39-cent hats.

An Extremist.

"He prides himself on being open and above-board in everything he undertakes."

"That being the case, I presume he takes all his baths in the public square."

The Popular Remedy.

"So you are going to make a new will and cut some of the present legatees out."

"Yes. I am going to give some of my relations the fresh hair treatment."

IS SURE SIGN OF SUMMER

Irish Woman Shows Great Solitude for Lady Bug She Plucked From Longpole's Neck.

The other day Mr. Longpole went over to Brooklyn on business. He boarded a Fulton street car, and scarcely had taken his seat when an amply-proportioned, good-natured looking Irishwoman plumped down next him. A few moments later Mr. Longpole felt that the woman had turned part way round and was regarding him attentively. Presently she raised one fat hand and, with the fingers brought closely together at the tips, cautiously approached it toward his neck, saying at the same time in a loud, cheerful voice:

"Excuse me, but you've a lady boog crawlin' on yer neck, an' I'll take it off for ye, careful-like, so as not to frighten the poor baste." With that she advanced her hand still further and gently plucked the insect from Mr. Longpole's neck. "There!" said she triumphantly. "I have it in me two fingers. See!" and she held the bug up for his inspection. Then, contemplating it more closely and cordially including all the passengers in her remark, she said: "Lady boogs do be a sign of summer, I'm tould."—New York Press.

SUICIDE BUREAU A SUCCESS

More Than 4,000 Persons Saved From Self-Destruction in London Since It Started.

Many interesting pages from the great book of life are to be found in the report of the operations of the Salvation Army's anti-suicide bureau.

Since it was started 4,754 persons have called to lay their embarrassments before Colonel Emerson, and have asked him to "show cause"—as the lawyers say—why they should not put an end to their lives. The largest number put down the cause of their trouble to financial reasons; after this come drink or drugs, and melancholia.

The applicants come from almost every class except the workers. There are clergymen, missionaries, military officers, doctors, solicitors, schoolmasters, clerks and company promoters. They have all been dealt with according to their needs, and such help has been given them as their cases seemed to demand.

Legal and medical advice has been afforded; creditors have been reasoned with, reconciliations have been brought about with relatives. And the work, according to General Booth, has been successful beyond highest expectation.—London Chronicle.

Statue That Sprang Up in Night. In London, where one of the most luxuriant and beautiful parks in the world, the Kensington Gardens, is a vast playground for children, the fairies' own month of May was celebrated this year with a rare gift. A statue of Peter Pan, the boy who would not grow up, prettily litting on an ancient tree-trunk and blowing his pipe, which brings the birds and squirrels and field mice out to listen, was set up in a single night and when the little children came next day to play they believed that the beautiful image of the little boy who plays with them at make-believe was left by the fairy folk themselves. And who would be so sadly grown up as to tell them any different?

The statue, presented by Mr. J. M. Barrie, author of the story, "Peter Pan," is of exquisite beauty. The inscription is: "Peter Pan, Friend of the Fairies and Little Children."—The Christian Herald.

The Main Thing.

Arnold Bennett, the English romancer, was much impressed in New York by the beauty of the girl stenographer.

"It isn't your attitudes or your society belles that I'd award the palm for beauty," Mr. Bennett said at a luncheon, "it's to your stenographers."

"I won't say it's their beauty alone that gets these girls their positions, but I'll tell you a story."

"A male stenographer was talking about a girl who had displaced him."

"Is she really an expert?" his listener asked.

"Oh, no," was the reply; "but she's as expert as you'd expect a girl of her beauty to be."

Woman's Unfitness. An anti-suffragist once said, "Woman's unfitness for the ballot necessitates her continuance in a narrow environment."

This reminds us of the old negro who was asked why he did not seek religion. He replied, "Boss, I ain't fit."

"Well," said the other man, "why don't you get fit?"

Uncle Pete answered, "Boss, I ain't atten to git fit."—Woman's Journal.

THEY GET WHAT THEY WANT

Salvation Army Members Always Have Way of Getting Anything They Require.

There are few things that the Salvation Army does not require at some time in its existence, and because it never hesitates to ask for what it wants it usually gets it, says the New York Times. The other night a small band of Army enthusiasts needed umbrellas. Rain pelted down with stinging force, yet they refused to break ranks. A boy with umbrellas to rent perceived their drenched condition and rushed up shouting:

"Here are your umbrellas. Only 5 cents apiece till the meeting breaks up."

None of the Salvationists seemed disposed to gain protection at that price, so their resourceful leader made an appeal in their behalf. Addressing the few bystanders he said:

"If there are any persons in the audience who had contemplated contributing a little money to the cause, will you kindly give it now that we may rent these umbrellas which our young friend has offered us?"

"Well, I'll swear," was the somewhat inappropriate comment of one man on the sidewalk, but he and his companions contributed a quarter with which to rent umbrellas for the five women Salvationists.

It may not greatly console modern people, but a paper read at the Paris Academy of Science last week established the fact that rheumatism "was as common among our ancestors of the polished stone age as it is at the present time." Researches made by Dr. Marcel Badouin of a neolithic place at Vendrest left no doubt that thirty backbones among one hundred skeletons showed the effects of this disease. The skeletons of the women showed that the left side was the more often affected, while the men seem to show the effects on the right side. Dr. Badouin's paper concluded that the affection which nowadays is called osteoarthritis difformis is the oldest known disease. It has been found in the cave of a bear at Ariege, the oldest quaternary stratum, and also among the most ancient Egyptians and prehistoric Nubians.

TENTATIVE PLATFORM

What Leaders Desire Republican Convention to Indorse.

Chicago, June 20.—The following is the tentative draft of the platform of the Republican party as it has been outlined by the leaders who have been working for the past four days on that document:

"The Republican party declares its unchanging faith in government of the people. It reaffirms its devotion to the fundamental principles of constitutional government established by the fathers; those principles which make provision for orderly and effective expression of the popular will, for the protection of civil liberties and the essential rights of man and for the interpretation of the law by an independent and untrammelled judiciary. It will take no part in either the changing or the overturning of the American form of government.

"The Republican party is a party of progress and it is prepared to go forward with the solution of those new problems which social, economic and political developments have brought into the forefront of the nation's interest. It will strive to safeguard the public health, to limit effectively the labor of children who should be at school, to protect wage earners in dangerous occupations, to substitute the principle of workmen's compensation for suits at law, to recognize their claims for injury, to obtain public ownership and control of those natural resources that are still the public property, and to satisfy the just

demands of the study and solution of complex and constantly changing problems of social welfare.

"In dealing with these questions it is vitally important that the rights of every individual to the freest possible development of his own powers and resources and to the control of his own justly acquired property shall not be interfered with or destroyed.

"The Republican party reaffirms its intentions to uphold at all times the authority and integrity of the courts, both state and federal, and it will ever insist that their power to enforce their processes and to protect life, liberty and property shall be preserved inviolate.

"The Republican party is opposed to special privilege and to monopoly. It placed upon the statute books the anti-trust act of 1890, and it has consistently and successfully enforced the provisions of that law. It will take no backward step to permit the re-establishment in any degree of conditions which were intolerable.

"The Republican party will support the prompt scientific inquiry into the causes which are operative both in the United States and elsewhere to increase the cost of living, and when the exact facts are known, to take the necessary steps to remove any abuses that may be found to exist in order that the cost of the food, clothing and shelter of the people may in no way be unduly or artificially increased."

CHANGES HIS MIND

Heney Bolts Credentials Committee Hearing, but Returns.

Chicago, June 20.—Francis J. Heney of California led a revolt of the 19 Roosevelt members of the credentials committee, Heney, addressing the committee, said:

"The Roosevelt contesting delegates will have a hearing in the Florence room in the annex at once. We have left the meeting room inside because they have passed a resolution limiting the hearing in all contests to five minutes for each district, with 10 minutes permitted for arguments in general contests. We will not stand for this and we don't consider it any hearing at all."

After Mr. Heney and his colleagues on the credentials committee left the committee room, Jesse Tolerton of Jefferson City, Mo., came to the doors of the committee room and, swinging them open, with both arms aloft, cried, "You newspaper men, come in."

The newspaper men filed into the room, but were quickly obliged to retire, because the committee had not yet passed upon the question of admitting them. The spectators in the anteroom also swarmed through the

doors and the police had to be called in to quell what promised to be an incipient riot. Mr. Heney and his colleagues were gone about long enough to go up to the Congress annex and back, when he returned with Chairman Dixon of the Roosevelt committee, who apparently was preventing him from bolting prematurely. Mr. Heney and his colleagues went back in the committee room at 11 o'clock. Shortly after Mr. Heney left the convention hall it was announced the committee had changed its plan and agreed to give 15 minutes for each district hearing and 30 minutes for each state hearing, the same that the national committee allowed to hear all contests.

HADLEY LOST OUT

Made a Game Fight but Is Overruled by the Convention.

Chicago, June 20.—The arguments for and against the motion of Governor Hadley of Missouri to strike from the temporary roll, as prepared by the national committee, the delegates whose seats were contested before the committee to the number of some 74 and to put in their places on that roll the contestants, was begun as soon as the convention had been called to order by Senator Root. Mr. Root stated that through an agreement between Governor Hadley and Representative Watson of Indiana, each side would have an hour and a half to present its case. Governor Hadley was the first speaker. He was greeted with much applause.

After a lengthy and acrimonious debate, former Congressman Watson moved to refer the Hadley motion to the committee on credentials.

Governor Deneen of Illinois moved that no delegate whose status was in question could not be allowed to vote in the selection of the members of the committee on credentials or on the report of that committee. The amendment was in the interests of the Roosevelt contingent.

Mr. Watson then moved to table the Deneen amendment. This brought the whole matter fairly and squarely before the convention. If Deneen's amendment was tabled it meant that the Roosevelt contingent had won in their contention. It meant that none of the contested delegates could vote and it meant ultimately a clear-cut majority in the convention for the Roosevelt men.

Deneen's amendment was tabled by a vote of 564 to 510. The convention then adjourned until today noon, after the committees on credentials, resolutions and minor committees of the convention were appointed.

MAKING TASKS EASY.

There are lots of magazines printed for the purpose of telling women how to make their work lighter. But you can't reduce labor by reading about it. All the philosophy and theory in the world won't help you out on wash day unless you use Easy Task soap, which lives up to its name and makes washing an easy task by doing half the work. Get it at your grocers'.

Nell—I think women take up entirely too much time at the looking glass. I very seldom spend idle moments at my mirror.

Belle—But, my dear, that may be because it takes some reflection to face the truth.

He Agreed.

"What you need," said the wordy meddler in his ponderous way, "is an enlargement of your daily round, a wider circle of activity."

"Mebby that's right," said the patient. "I'm a bareback rider in a one ring circus."

Fish Story.

Knicker—A month ago I told a lie on the water.

Bocker—Well?

Knicker—I cut open the fish I caught today and found he had swallowed it.

NECESSARILY.

The Comedian—Yep, we played to standing room only in Suedunk. The Tragedian—Indeed!

The Comedian—Sure thing. You see the sheriff had attached and removed all the seats in the opera house.

Explains Reno.

The matrimonial ship Doth sail a stormy sea, And woe attends the trip When hearts can not agree.

A Suggestion.

"You need some uplift in that play." "Then why not put in an elevator scene?"

Alton B. Parker Will Preside

Special to Herald.

Baltimore, Md., June 20th.—Judge Alton B. Parker, Democratic nominee for president in 1904, has been chosen by the Democratic National Committee to preside as temporary chairman at the Democratic National Convention next week.

Urey Woodson, of Kentucky, was also named temporary secretary, and John I. Martin, sergeant-at-arms of the convention by the committee.

JUST A LITTLE SMILE

A Fusillade.

"Here is a sad story alleged to have been handed down from the stone age."

"Tell me about it."

"Instead of merely returning the letters of a rejected swain, a peevish damsel threw them at him."

"Oh, well, even though there were a hundred letters, each considerably heavier than a brick, I don't suppose she hit him once."

"That's where you are mistaken. According to this account, women could throw tolerably straight in the stone age."

Puzzling Predicament.

A visitor at a western town observed a resident with his face wrapped up in a huge woolen rag.

"What's the matter, uncle?" inquired the visitor.

"I'm in the all-fredest fix a man ever got inter," was the reply.

"Perhaps I can help you."

"No, you can't," groaned the sufferer. "I've got a jumpin' toothache and the only dentist in town is my worst enemy."

In a Militant Neighborhood.

The caller rang the bell of a characteristic London residence.

"Sorry to trouble," she said to the resplendent footman, "but can you tell me what are Mrs. Beethoven's 'at home' days?"

"Beggin' your pardon, ma'am," the sublimated flunky replied, "she 'as no at 'ome days at present. She's in jail."

Always Out of a Job.

"You insist on telling people you are lookin' fer work," said Meandering Mike.

"Yes," replied Plodding Pete; "in the spring I go north to say I'm a pineapple picker, and in the fall I go south and tell 'em I'm a skate sharpener."

WOES OF SUBURBANITE.

"Oh, yes; I bought a country place, laid out \$2,000 on it, and now it's worth twice what I paid for it."

"What did you pay for it?"

"Five hundred dollars."

A Motor God.

Dan Cupid doesn't get the call, These latter days, I ween, Unless he has the wherewithal To pay for gasoline.

An Inducement.

Jones—Don't you think it is time to make our wives drop this suffragette nonsense?

Smith (thoughtfully)—I don't know about that. They say they are wearing 39-cent hats.

An Extremist.

"He prides himself on being open and above-board in everything he undertakes."

"That being the case, I presume he takes all his baths in the public square."

The Popular Remedy.

"So you are going to make a new will and cut some of the present legatees out."

"Yes. I am going to give some of my relations the fresh heir treatment."

IS SURE SIGN OF SUMMER

Irish Woman Shows Great Solitude for Lady Bug She Plucked From Longpole's Neck.

The other day Mr. Longpole went over to Brooklyn on business. He boarded a Fulton street car, and scarcely had taken his seat when an amply proportioned, good-natured looking Irishwoman plumped down next him. A few moments later Mr. Longpole felt that the woman had turned part way round and was regarding him attentively. Presently she raised one fat hand and, with the fingers brought closely together at the tips, cautiously approached it toward his neck, saying at the same time in a loud, cheerful voice:

"Excuse me, but you've a lady boog crawlin' on yer neck, an' I'll take it off for ye, careful-like, so as not to frighten the poor baste." With that she advanced her hand still further and gently plucked the insect from Mr. Longpole's neck. "There!" said she triumphantly. "I have it in me two fingers. See!" and she held the bug up for his inspection. Then, contemplating it more closely and cordially including all the passengers in her remark, she said: "Lady boogs do be a sign of summer, I'm tould."—New York Press.

SUICIDE BUREAU A SUCCESS

More Than 4,000 Persons Saved From Self-Destruction in London Since It Started.

Many interesting pages from the great book of life are to be found in the report of the operations of the Salvation Army's anti-suicide bureau.

Since it was started 4,754 persons have called to lay their embarrassments before Colonel Emerson, and have asked him to "show cause"—as the lawyers say—why they should not put an end to their lives. The largest number put down the cause of their trouble to financial reasons; after this come drink or drugs, and melancholia. The applicants come from almost every class except the workers. There are clergymen, missionaries, military officers, doctors, solicitors, schoolmasters, clerks and company promoters. They have all been dealt with according to their needs, and such help has been given them as their cases seemed to demand.

Legal and medical advice has been afforded; creditors have been reasoned with, reconciliations have been brought about with relatives. And the work, according to General Booth, has been successful beyond highest expectation.—London Chronicle.

Statue That Sprang Up in Night.

In London, where one of the most luxuriant and beautiful parks in the world, the Kensington Gardens, is a vast playground for children, the fairies' own month of May was celebrated this year with a rare gift. A statue of Peter Pan, the boy who would not grow up, prettily lifting on an ancient tree-trunk and blowing his pipe, which brings the birds and squirrels and field mice out to listen, was set up in a single night and when the little children came next day to play they believed that the beautiful image of the little boy who plays with them at make-believe was left by the fairy folk themselves. And who would be so sadly grown up as to tell them any different?

The statue, presented by Mr. J. M. Barrie, author of the story, "Peter Pan," is of exquisite beauty. The inscription is: "Peter Pan, Friend of the Fairies and Little Children."—The Christian Herald.

The Main Thing.

Arnold Bennett, the English romancer, was much impressed in New York by the beauty of the girl stenographer.

"It isn't your actresses or your society belles that I'd award the palm for beauty," Mr. Bennett said at a luncheon. "It's to your stenographers."

"I won't say it's their beauty alone that gets these girls their positions, but I'll tell you a story."

"A male stenographer was talking about a girl who had displaced him."

"Is she really an expert?" his listener asked.

"Oh, no," was the reply; "but she's as expert as you'd expect a girl of her beauty to be."

Woman's Unfitness.

An anti-suffragist once said, "Woman's unfitness for the ballot necessitates her continuance in a narrow environment."

This reminds us of the old negro who was asked why he did not seek religion. He replied, "Boss, I ain't fit."

"Well," said the other man, "why don't you get fit?"

Uncle Pete answered, "Boss, I ain't tten to git fit."—Woman's Journal.

THEY GET WHAT THEY WANT

Salvation Army Members Always Have Way of Getting Anything They Require.

There are few things that the Salvation Army does not require at some time in its existence, and because it never hesitates to ask for what it wants it usually gets it, says the New York Times. The other night a small band of Army enthusiasts needed umbrellas. Rain pelted down with stinging force, yet they refused to break ranks. A boy with umbrellas to rent perceived their drenched condition and rushed up shouting:

"Here are your umbrellas. Only 5 cents apiece till the meeting breaks up."

None of the Salvationists seemed disposed to gain protection at that price, so their resourceful leader made an appeal in their behalf. Addressing the few bystanders he said:

"If there are any persons in the audience who had contemplated contributing a little money to the cause, will you kindly give it now that we may rent these umbrellas which our young friend has offered us?"

"Well, I'll swear," was the somewhat inappropriate comment of one man on the sidewalk, but he and his companions contributed a quarter with which to rent umbrellas for the five women Salvationists.

It may not greatly console modern people, but a paper read at the Paris Academy of Science last week established the fact that rheumatism "was as common among our ancestors of the polished stone age as it is at the present time." Researches made by Dr. Marcel Badouin of a neolithic burial place at Vendrest left no doubt that thirty backbones among one hundred skeletons showed the effects of this disease. The skeletons of the women showed that the left side was the more often affected, while the men seem to show the effects on the right side. Dr. Badouin's paper concluded that the affection which nowadays is called osteoarthritis difformis is the oldest known disease. It has been found in the cave of a bear at Ariege, the oldest quarry stratum, and also among the most ancient Egyptians and prehistoric Nubians.

Asthma! Asthma!

POPHAM'S ASTHMA REMEDY gives instant relief and an absolute cure in all cases of Asthma, Bronchitis, and Hay Fever. Sold by druggists; mail receipt of price \$1.00.

Trial Package by mail 10 cents.

WILLIAMS MFG. CO., Fr. pa., Cleveland, Ohio.

Sold at Brown's Drug Store.
